## Lead Backing for Electrical Boxes (for new construction)

### Product Overview

- Pre-formed for 16" on center stud spacing.
- Available in several different lead thicknesses depending on your wall shielding requirements.
- Installation: Screw the backing to the face of the studs before the drywall is hung. Center the electrical box in height.
- Electrical boxes are not included.

### Standard Lead Thicknesses

- 1/16" – (4#) – 1.6mm
- 5/64" – (5#) – 2mm
- 3/32" – (6#) – 2.4mm
- 1/8" – (8#) – 3.2mm
- Other thicknesses are available upon request

### Note:

A radiation shielding report is required to determine the lead thickness.
