

# The Morning Machine MM730

## *step by step*

### QUICK START GUIDE

---

step  
**01** Connect the Morning Machine to Wi-Fi > install the Drink Morning app > on the app, add a new machine and follow the instructions.

step  
**02** Register your machine.

[REGISTER HERE](#)

step  
**03** Perform an OTA (firmware) update by holding both buttons > Settings > OTA Update.

step  
**04** Hold the  Back button to purge (flush) the machine twice. This will remove air in the system before brewing.

step  
**05** \*Insert filter into the water tank. Hold the  Confirm button to flush two full water tanks using the hot water dispenser.

step  
**06** \*On the machine, perform a pump calibration. Press both buttons > Settings > Calibration > Pump Pressure.

\* Perform steps 05 and 06 if a water filter is installed in the tank.
