

# Felcana

## DESIGN ENGINEER INTERN

Felcana is a disruptive pet tech start-up that tracks the health and behaviour of cats and dogs. Along with helping owners to better understand their pets, Felcana provides reliable insights that empower vets to make earlier and more accurate diagnoses.

We are an inventive and fast-paced team that is always striving to grow both professionally and personally. We believe in being constantly challenged and we cultivate this attitude through autonomy, responsibility and open discussions. We are seeking talented individuals that share our enthusiasm and drive to help build the future.

## THE ROLE

We're looking for a mechanical engineer or technically minded designer who enjoys a bit of variety. You'll be assisting the design and engineering teams, building and testing rigs and prototypes, and developing for manufacture. You will need to be adept at 3D-CAD modelling and data interpretation. This will be an exciting time for Felcana, and you will be an integral member of the team helping us bring our product to market.

Send us your CV along with a brief description to [careers@felcana.com](mailto:careers@felcana.com). Include "[Design engineer intern]" in the subject without the quotes
