STOWED is the brainchild of former wall street lawyer elissia sigalow, who saw a market need during the design of her own home and decided to do something about it. what she wanted seemed like a simple ask - clean-lined, nordic-inspired furniture that she wouldn't look back on 10 years later and wonder, "what was i thinking?" she took matters into her own hands and began creating, designing and building hand-crafted wood and upholstered pieces that she'd love just as much in 40 years as she does now.
