## WITH SHURHOLD, IT'S EASY TO CAPTURE INCREDIBLE SHOTS

The Internet is full of incredible photos and videos taken with action cameras. With the Shurhold Camera Adapter, it's easy to mount a GoPro or Garmin VIRB to any of their 11 handles and capture breathtaking overhead shots or even underwater footage. And unlike a common selfie stick, it won't snap off when that once-in-a-lifetime moment happens.

Made from a durable polymer with corrosion-resistant hardware, the Camera Adapter is built for an outdoor environment. Handheld or propped against an RV, it offers an unmatched aerial view of the action to seize a video that's destined to become a cherished keepsake—or go viral. It's perfect for checking the rooftop and under the frame. When dipped into the water from a dock, it opens up a whole new aquatic world. A video is at [bit.ly/Camera-Adapter](http://bit.ly/Camera-Adapter).

The Camera Adapter is part of Shurhold's One-Handle-Does-It-All System. Offering fixed and telescoping handles up to 9' in length, the adapter installs with the fast and easy SHUR-LOK quick release. This makes it simple to swap with any of the company's tools and accessories. The Shurhold Camera Adapter costs \$11.48.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
