PRO POLISH WAX & SEALANT IS IN IT FOR THE LONG HAUL

Waxing a boat is time-consuming, so it pays to use a product that's in it for the long haul. Shurhold Pro Polish Wax & Sealant protects against the ravages of sun and a harsh marine environment, and provides a long-lasting, high-gloss shine that lasts for months.

Unlike traditional waxes that use talc powder, Pro Polish Wax & Sealant is an advanced, highly-concentrated polymer formula. Because of this, it goes on smoothly and quickly seals the surface with a water-repellent and UV-resistant finish. It's safe to use on gelcoat, paint, clearcoat, chromed and stainless steel, aluminum and other non-porous surfaces.

Using Pro Polish Wax & Sealant is easier than traditional waxes. Starting with a boat washed using a premium soap such as Shurhold Brite Wash, a small amount of Pro Polish is applied to a clean, dry surface with a microfiber cloth. Once dry, it's buffed by hand or machine. Because it's made from cosmetic-grade ingredients without fillers, there's no residue to contend with as it's worked. A 16 oz. container of Shurhold Pro Polish Wax & Sealant costs \$19.98; 1 gal. is \$88.98. A 32 oz. container of Brite Wash costs \$11.98; 1 gal. is \$29.98.

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at www.shurhold.com. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
