HANDHELD CLEANING TOOLS HELP ACHIEVE A DEEP CLEAN

A thorough cleaning is all in the details. Shurhold Industries has a full line of handheld boat cleaning tools to make sure owners can reach every nook and crevice with ease. The complete range features scrub brushes, sponges, microfiber towels and even a hose nozzle.

Shurhold's Scrub Brush has a soft, comfort handle with finger grips and a safety bumper. The lightweight, knuckle-saving handle helps get a job done faster. The ergonomic Utility Brush is perfect for use on upholstery, floor mats, vinyl and canvas. The Dip & Scrub Brush has stiff, chemical-resistant bristles made of polypropylene. It is available in short and long versions to provide the perfect reach for bait wells, wheels and water lines. Ideal for use with teak, the Detailing Brush has stainless steel bristles with a medium stiffness for quick removal of grease and grime.

The extra-large Super T sponge is designed with a T-shaped top for an easy grip and to make washing even easier than before. Shurhold's Bug and Tar Remover Sponge is a non-abrasive, mesh-covered sponge that is perfect for removing tar, grit, bugs, stains and grime faster and easier. It's perfect for removing stubborn contaminants from any surface without worrying about ruining the finish.

The Wash Mitt is made from soft, synthetic and absorbent fibers. Whether used wet or dry, the mitt's shaped thumb and elastic band base enable a comfortable and snug fit.

-more-

Microfiber towels lift and trap dirt, moisture and grease, unlike regular cotton towels, which just push contaminants across the surface. These towels are extremely soft, gentle, and super-absorbent so they won't scratch delicate surfaces.

PVA towels absorb 50% more water than natural chamois, making for faster and more effective drying. The towels prevent water spots on all surfaces and come in an extra large size of 43 cm x 69 cm. Shurhold's PVA sponges absorb more than any other sponge, making for faster and more effective drying. The sponges prevent water spots on all surfaces, while resisting mold and mildew.

The ergonomically-shaped, die-cast zinc Hose Nozzle body has a soft, black, vinyl grip for a comfortable hold. It includes a hold-open clip for constant water flow and has a stainless steel spring.

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at www.shurhold.com. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
