REMOVE BIRD DROPPINGS QUICKLY WITH SERIOUS CLEANERS

Bird and spider droppings are just as annoying as they are damaging. But, boaters don't want to scrub their deck multiple times a day either. With Shurhold Industries' Serious Marine Cleaner, Serious Shine and Pro Polish, owners can keep their deck sparkling and make future cleanings easier.

Designed to clean a multitude of surfaces, including fiberglass, vinyl, carpet, rubber, teak and canvas, Serious Marine Cleaner's non-abrasive formula removes dried-on particles without scratching the material. Created for the professional detailer, it eliminates the need to carry numerous cleaners onboard.

After removing the droppings, owners can provide a protective layer to surfaces with Shurhold's Serious Shine or Pro Polish. Serious Shine cleans, polishes and protects in one step without leaving behind any greasy or artificial residue. It further safeguards materials with its UV inhibitors and anti-static properties.

Pro Polish serves as a sealant and polish with UV inhibitors and produces an ultra-high-gloss finish. Without containing filler or talc, like wax, it's formulated with cosmetic-grade ingredients to protect against sun, salt, acid rain and other harsh environmental factors. Both Serious Shine

and Pro Polish create a protective surface layer, enabling new droppings to be removed with less effort.

Shurhold's Serious Marine Cleaner is available in a convenient, 948mL trigger spray bottle or a 3.78L concentrate. Serious Shine comes in a 396 gram aerosol can, while Pro Polish is offered in a 473mL bottle and a 3.78L bucket.

Dedicated to educating boat owners, Shurhold offers a free guide of 5 key tips for boat value preservation at www.shurhold.com/tips. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
