SCRUB, NET, DOCK AND TAKE A SELFIE—WITH ONE TOOL

Even on the largest boats, owners can run out of storage space. Lazarettes that were empty at the beginning of the season are often overflowing by summer. The key is to consolidate. Shurhold's One Handle Does It All system is a perfect solution to the age-old problem of onboard storage, and one that saves time and money to boot.

The heart of Shurhold's One Handle Does It All system is the handle. All eight models are manufactured in the USA from high-strength, corrosion-resistant aluminum and feature ergonomic grips for ease of use.

Fixed lengths of 33cm, 76cm, 101cm and 152cm are offered. Telescoping handles provide more reach. The 183cm model locks at four intervals between 101cm and 182cm; the 274cm model locks at five positions between 152cm and 274cm. A 76cm extension is available to fit any model.

Over 40 different Shurhold accessories quickly and easily snap on and off to tackle a wide range of jobs. With one lightweight handle, owners work efficiently, switching from one tool to the next with the press of a button. Gone are the days of walking back and forth across the deck to retrieve a different tool.

For cleaning everything from the hardtop to cabin sole, Shurhold attachments include brushes, mops, brooms, swivel scrubbers and

-more-

squeegees. There's even a Curved Adapter that's perfect for getting at the waterline.

For fishermen, Shurhold offers landing, crab and dip nets. And when it's time to land the big one, gaffs and taggers quickly snap on.

Boat hooks and paddles are available, and even a camera adapter for underwater shots or the perfect selfie. When space is at a premium and budgets limited, Shurhold's One Handle Does It All system is the best choice. A video is at bit.ly/1P0yi2B.

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at www.shurhold.com. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
