DETAILING SPRAY AND TOWELS PAIR UP FOR SERIOUS SHINE

A boat is not truly clean until it has been detailed. Yacht Brite Serious Shine marine detailer from Shurhold Industries, used with Shurhold's Microfiber Towels, cleans, polishes and protects virtually any solid boat surface quickly and easily.

Serious Shine is a handy, one-step waterless detailer. It's safe and effective on fiberglass, paint, metal, vinyl, clear plastic, glass, Plexiglas and rubber. Leaving behind no greasy residue, Serious Shine contains UV inhibitors and anti-static properties to further protect all surfaces of the boat, inside and out.

For the best results, Shurhold recommends its Microfiber Towel set that includes an extra-strong towel to wash and wipe up, a super-soft towel to polish and a lint-free towel for glass and mirrors. The towels measure a generous 17" x 17" and absorb 50% more than natural chamois.

Yacht Brite Serious Shine in a 14 oz. aerosol can retails for \$16.99, and the Microfiber Towel set costs \$18.95.
