MICROFIBER TOWELS KEEP A VARIETY OF SURFACES CLEAN

Wet it, wring it and wipe it. In three easy steps, microfiber towels lift and trap dirt, moisture and grease, unlike regular cotton towels, which just push contaminants across the surface. Shurhold Industries Microfiber Towels are extremely soft, gentle, and super absorbent so they won't scratch delicate surfaces, making them great for priceless vehicles.

These towels are great for washing, waxing and polishing all around a car, truck or motorcycle. They are safe to use on fiberglass, glass windows and mirrors, Plexiglas, eisenglass and solid surfaces.

Shurhold also offers a three-pack of microfiber towels, each with a different cleaning application. The dark blue towel is super soft for polishing and shining. The yellow towel is extra-strong for washing and cleaning, while the light blue towel is lint-free for cleaning and wiping glass and mirrors.

All of Shurhold's Microfiber Towels can be washed up to 500 times without losing their softness. They're machine washable, but fabric softener should never be used. Shurhold's Microfiber Towels can also be used on boats, RVs and around the house.

Shurhold's Microfiber Towels are sold in a 12-pack for \$49.98 or in multi-three-pack for \$18.98.

-more-

Shurhold is dedicated to educating car and truck owners on vehicle value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
