ONE SYSTEM FITS ALL AUTO MAINTENANCE NEEDS

Versatility is important when selecting automotive cleaning tools. Shurhold Industries' One Handle Does It All System enables users to snap over 40 different accessories to the same fixed length or telescoping handles, adding convenience and saving garage space. Over 20 attachments are dedicated to maintenance.

Several different brushes enable owners to get a thorough wash-down, while an angled floor broom helps sweep out the garage. Squeegees dry the entire car, not just the windows. Soft non-scratch scrubbers attack black streaks. If taking a drive to go fishing, Shurhold offers boating attachments, like a net and paddle. There's even an attachment to screw in a paint roller.

To begin, users simply select the best handle for their application, then add the different attachments they'd need. All telescoping or fixed-length handles are made of high-strength, corrosion-resistant, lightweight aluminum. The telescoping handles are available in 6' and 9' sizes. The 6' locks at four different lengths from 40"-72", while the 9' locks at five different lengths from 60"-108". Fixed-length handles are available in 13", 30", 40" and 60" sizes.

Shurhold's One-Handle-Does-It-All System has a starting price of \$6.98 for a fixed handle.

Shurhold is dedicated to educating car and truck owners on vehicle value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
