SHURHOLD POLISHERS TURN CHORES INTO EASY TASKS

From giving new life to a sun-faded classic to keeping a new boat in showroom-like condition, nothing beats a quality polisher. Shurhold Industries offers three models that fit any need or budget, and turn tiresome chores into simple, easy tasks.

Shurhold's most popular model is the random 8mm orbit Dual Action Polisher. It makes short work out of removing gelcoat oxidation and buffing a layer of wax for the ultimate shine. A quick change backing plate makes changing tools a snap. With a 5" oscillating head that eliminates swirl marks, it delivers professional results at less than the cost of hiring a boat detailer.

The Dual Action Polisher Pro adds a larger 6" oscillating head with a 21mm orbit, increasing coverage to finish the job faster. It comes with two different ergonomic handles, a thumb-controlled variable speed dial and EZ Change carbon brush ports.

The ultimate boat detailing tool is Shurhold's Pro Rotary Polisher. In experienced hands, its 7" head quickly works magic on the toughest surface. Three ergonomic grip styles, a thumb-controlled variable speed dial and locking on button provide all-day comfort. EZ Clean mesh air intake vents and EZ Change carbon brush ports ensure a long service life.

All three polishers come with a convenient canvas storage bag. Detailed user guides are included.

Shurhold offers a wide assortment of durable, professional-grade pads, brushes and bonnets to fit its polishers. The company's high-quality and effective detailing chemicals are renowned in the marine industry.

These polishers are built to last. They come with a one-year limited warranty against defects in materials or workmanship. Videos on the different Shurhold models and how to use them are at www.youtube.com/user/Shurhold/videos.

Shurhold Industries' Dual Action Polisher sells for \$149.99; the Pro Rotary Polisher for \$189; and the Dual Action Polisher Pro for \$279.

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at www.shurhold.com. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
