SIMPLE DEVICE KEEPS BUCKETS FROM SKIDDING

Owners no longer have to worry about their buckets slipping or toppling over, possibly causing damage to their boat's delicate surfaces. Shurhold's Bucket Base is a sturdy non-skid, non-marking ring designed to minimize buckets from sliding around.

Stopping problems before they happen, this unique tool also helps prevent scratches in fiberglass and teak. Pails will not fall over with brushes in them either.

This floating, durable ring is UV resistant. It fits most five and three-and-a-half-gallon buckets with a base diameter of 10-1/4 to 10-1/2".

A video of this handy piece of equipment in action can be found here: bit.ly/1IP1GDg. Shurhold's Bucket Base has price of \$12.95.

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at www.shurhold.com. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
