 2975 Red Hill Ave., Suite 100, Costa Mesa, CA 92626, USA

SAFETY INSTRUCTIONS:

Read this manual thoroughly before first use and keep it in a safe place for future reference.

- Keep the LED Light out of children's reach; it is not a toy.
- The LED Light should be installed outdoors in order to receive sunlight for charging.

BATTERY REPLACEMENT INSTRUCTIONS:

- When replacing the rechargeable battery, be sure to:
- Use a rechargeable battery only.
- Match the replacement battery specifications with the battery that have been removed.
- **IMPORTANT:** Dispose of the Lithium ion battery in accordance with local, state and federal regulations.
- Swallowing the batteries may lead to serious injury or death. Seek immediate medical attention if batteries are ingested.
- Clean the batteries and the battery contacts before inserting if necessary with a clean, dry cloth.
- Always match the replacement battery specifications with the specifications of the original batteries.
- Ensure the batteries are installed correctly in regards to the polarity (+ and -). Wrongly inserted batteries may cause battery leakage and cause damage to the device or other harmful.
- Remove batteries when they are not used for an extended period of time.
- Keep batteries out of children's reach.
- Do not charge, dismantle, throw into fire, or short-circuit the batteries.
- If a battery has leaked, avoid contact with skin, eyes, and mucous membranes. Promptly rinse any affected area with water and seek medical assistance.
- Do not mix old and new batteries.
- Always use the same type of batteries. Do not mix alkaline, standard (Carbon-Zinc), or rechargeable (Nickel Cadmium) or (Nickel Metal Hydride) batteries.

CLEANING AND MAINTENANCE:

- Regularly clean the solar panel with damp clean cloth, to ensure optimal performance and battery charging.
- Never use a cleaner with chemicals, solvents, or harsh abrasives to clean the product.
- Place the light in an area where the solar panel is exposed to directly sunlight, in order to charge the battery properly.

2

PACKAGE CONTENTS:

Please lay out all parts and read the instructions prior to installation.

2 x LED Rock Spot Light

2 x Rechargeable 18500
3.2V LiFePO4 Battery
(pre-installed)

PRODUCT SPECIFICATIONS (PER PACK):

1. Solar Powered only
2. Light Output: 25 lm when battery is fully charged
3. Color Temperature: 3000K / 5000K
4. Operating Temperature: 0°C - 40°C / 32°F - 104°F
5. Battery type: 1 x 18500 Li-ion battery, 3.2 V, 800 mAh

OPERATIONAL PROCEDURES:

- To properly charge the battery, place the light in an area where the solar panel will be exposed directly to sunlight.
- Fully charge the battery for one full day prior to the first use.
- Use the selector switch on the bottom of the light to turn ON and OFF the light.
- Use the selector switch to select either Warm White (3000K) or Cool White (5000K).
- The light will automatically turn ON as evening approaches and OFF as sunlight is detected.

4

BATTERY REPLACEMENT:

The battery and the battery housing is located on the bottom of the rock light. Turn the selector switch to the OFF position on the light prior to opening the battery housing. Remove the four screws to reveal the battery. When replacing the battery, observe the correct polarity and match the battery specifications with the Batteries you have removed. Only use rechargeable batteries. After replacing the battery, put back the gasket in place and install the four screws.

5

TROUBLESHOOTING:

Problem	Possible Cause	Solution
The light does not turn on at night	The switch is not turned on.	Select to either 3000K or 5000K setting, and charge the light with direct sunlight.
	The light is installed close to other light source, so the solar light does not turn on automatically at night.	Move the light away from the other light source during the night.
The light turns off quickly after dusk.	The battery is not fully charged.	Ensure the light is place in an area where it can receive the maximum amount of sunlight during the day. Also, keep the solar panel clean for maximum charging performance.
	The battery is old.	Replace the old battery with a new lithium battery, type 18500, 3.2V.

6
