

## Factory Production Assistant – FULL TIME Position

Recent product growth for our Australian produce now requires additional staff to join our production facility in Ovens. This full-time position will work within our food manufacturing department as part of a team. The role requires a skilled manual worker with experience ideally in food production and manufacturing processes with agricultural practices being desirable.

### Key Requirements:-

- Manual Handling of bulk materials – Will require a high degree of physical fitness.
- Need to have previous experience running form fill seal or doy food packaging machines
- Experience desirable but training will be provided in food grade machine operation including oil press, flour milling machines, chocolate pans and and some agricultural implements.
- Pallet stacking, box labeling, bottling and shelf stacking.
- Attention to detail especially with food manufacturing compliance requirements.
- Problem solving and good analytical skills especially when working with food ingredients and food products.
- Demonstrated approach to working in safely in manufacturing plants/businesses with a focus on safety first.
- Some customer service focus including telephone and front of house skills would be desirable.
- Flexible working hours around busy seasonal periods such as planting (Oct, Nov, early Dec) and harvest season (Mar, Apr, May).
- Monday to Friday with occasional weekends during busy periods.

### Core requirements: -

- Physical fitness – High Level.
- Full Drivers License – Tractor/Fork Lift and HGV desirable but not mandatory.

Applications close: 20<sup>th</sup> December.

Applications in writing to email :- [admin@pumpkinseed.net.au](mailto:admin@pumpkinseed.net.au) Only applications suitable for interview will be contacted. Interviews will begin immediately.
