

DON'T MAKE HER WAIT  
**ANY LONGER**

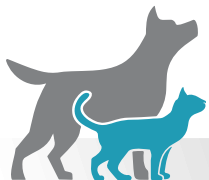

**Diagnose urine, skin  
and ear infections faster —  
do it in house.**

UTid+™ is a companion animal in-clinic culture system for diagnosing common bacteria and fungi associated with general infections, including urinary tract (UTI), skin conditions, ear disease, and much more. With UTid+, veterinarians can accurately diagnose infections faster and provide affordable and timely treatment plans that improve outcomes for both the pet and its owner.

*Instead of sending out cultures to laboratories and waiting days for results, use UTid+ to help accelerate patient care, be more judicious with antibiotic use, respond to clients' economic needs and improve your clinic's profit margins.*

UTid+ identifies the following pathogens: *Klebsiella spp.*, *E. coli*, *Pseudomonas spp.*, *Proteus spp.*, *Streptococcus spp.*, *Enterococcus spp.*, *Enterobacter*, *Serratia*, *Citrobacter*, *Coagulase negative staphylococcus spp.* (*S. chromogenes*, *haemolyticus*), *Staphylococcus aureus*, *Staphylococcus epidermidis*, *Malassezia*, *Candida*, *Prototheca* and other fungi.

# Get accurate results - fast and easy!

Tested against the gold standard of traditional lab cultures, new UTid+ provides accurate in-clinic bacterial and fungal diagnosis in just hours, allowing for more selective treatment plans, increasing cure rates and improving overall pet health. It takes only a few seconds to prepare the culture and interpret the results based on well-defined plate color changes.

## Accurate

Tested against traditional lab cultures, UTid+ exceeded expectations with 100% sensitivity in a preliminary trial using more than 50 samples.

## Fast

Traditional bacterial cultures can take up to 48 hours to show results, while UTid+ kits take 16 hours or less.

## Easy

UTid+ culture kits are easy to implement and can be performed by vet techs, assistants and other clinic staff.

**For in-clinic cultures, all you need are sterile swabs, an incubator and the UTid+ kit. It really is that simple.**

**UTid+ is AVAILABLE. Visit FERA's online web store at [www.feraah.com](http://www.feraah.com) and ORDER UTid+ TODAY!**

**FERA offers the Benchmark Scientific MyTemp Mini Digital Incubator.**
