GENERAL INFO

J & J SUPPLY, INC. was founded in 1961 in Fort Worth, TX by Jud Cramer and Jake Mobley selling automotive upholstery and paint. Now exclusively a wholesale automotive, marine, and furniture upholstery supplier, J & J ships products all over the continental United States to help with any upholstery project thanks to our diverse and ample inventory.

We have proudly offered the nation a wide selection of material and supplies at competitive prices for the past six decades. Quality service remains our priority in meeting all your upholstery needs.

VINYL

J & J Supply is one of the few select *Naugahyde* distributors in the country. We have a large selection of the decorative vinyl for contract, furniture, airplane and marine usage. Naugahyde offers a large variety of colors and textures to please even the most detail-oriented customer.

Mellohide by Morbern is a vinyl that is increasing in popularity every day. Its soft feel and large array of the most popular colors has made this the fastest growing vinyl in the country. It's perfect for any marine, auto, or furniture job that you may have.

- SOFT IMPACT VINYL** - 67 automotive colors with 12 perforated vinyls
- DENALI VINYL** - 45 colors, automotive and furniture
- SEASCAPE VINYL** - 46 marine colors, UV and mildew resistant
- HARMONY VINYL** - 42 updated furniture colors

CARING FOR LEATHER

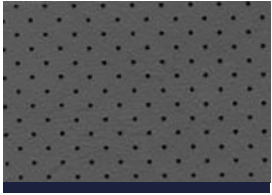

No upholstery material is easier to care for than modern leather. Dust it, wipe it occasionally with warm water and mild soap. The natural oils are sealed in so polishing isn't necessary.

We also carry SEM Dye for scuffs, moderate cracks, and re-dyeing of leather.

The thread shades listed have been formulated to offer the highest standards in color matching for the fabrics listed in the chart. Due to manufacturing and dyeing processes, the thread may appear darker on the tube than on the color card. When sewn into the fabric, the thread should match the colors shown on this card.

During situations in which the thread color is different from the fabric, please test for compatibility before use.

Since the conditions of use, washing, cleaning, etc. are beyond our control, the user of these products should determine if the character of the dye and all other characteristics of the products are suitable for the purpose for which they are intended. PROBLEM SOLVING TIPS

1. Material does not fold uniformly into a button.
 - Align button covering dies front to back.
2. Dent or ring on vinyl material after covering.
 - Is die correct for material? Check for too much stroke pressure.
