About Us

Starting in 1971, Don Sheil of Australia has created a uniquely Australian handmade brand, with one-of-a-kind handcrafted products incorporating a vast range of acid etched patterns. Amongst these are the popular Australiana patterns, especially popular to send overseas in representing Australia's heritage. Don Sheil products soon became a hit as perfect corporate gifts, especially with their fully customisable ability to incorporate 3-dimensionally etched logos. With a range of tableware and homewares, the products are popular all over the world for their quality and artistic characteristics.

The following lookbook is intended as a small sample of previous work. Free quotes are available which include significant discounts based on quantities ordered. Our website may also be used as a guide to view our range.

Handmade exclusively in Australia, using local suppliers.
