HYSSSES

WHEN NATURE PAMPERS

Our beginnings started from a simple wish of sharing nature's gifts with the world through essential oils and natural aromatherapy products.

HYSSSES (乡术, meaning 'arts from the village') embodies a pure and authentic sense of preserving nature, heritage and appreciation for the native communities that have helped shape and broaden our journey.

We scour the many corners of the earth to bring you the best of East and West, handpicking our ingredients from native sources where they thrive under naturally optimum environments and the seasoned hands of indigenous people. Each HYSSSES product is consciously designed to honour its quality as much as it pays tribute to its roots to deliver the treasures of the earth into your hands.

When Nature Pampers, it's undeniably HYSSSES.

BRAND PHILOSOPHY

GENUINE QUALITY

Our customers are confident in our products. We do not compromise on quality and use only pure essential oils and natural botanical ingredients in our products.

RECTITUDE & INTEGRITY

We uphold ethical and legal standards for our policies, day-to-day conduct, and social responsibility. Being transparent gives us the opportunity to learn from mistakes.

EXCELLENCE & INNOVATION

We believe that high standards keep us at the forefront of the industry as a highly-trusted brand. We aim for distinction, effectiveness, and creative innovation in everything we do.

ACCOUNTABILITY & GROWTH

Ownership and accountability is the keystone of the company's opportunity management approach. We groom our talents to be the next generation of committed and responsible leaders.

TEAMWORK & DIVERSITY

We strive for active team involvement, fair treatment, and open communication with each other to streamline workflow, and establish healthy and collaborative relationships.

CANDLES

Beeswax Candle

BEESWAX CANDLE

All HYSSES candles are made of beeswax, which is naturally non-toxic and takes up to three times longer to burn than paraffin wax. Only cotton wicks are used, translating into cleaner burn fumes than when using conventional wicks containing lead.

A vertical garden wall featuring a variety of plants. At the top, there are plants with large, intricate, lace-like leaves. Below them are clusters of small, round, light green plants. The middle section is dominated by a dense layer of small, green, needle-like plants. On the left side, there are plants with large, dark purple leaves. In the lower middle, there are plants with large, green, fern-like leaves. At the bottom, there are plants with large, dark green, textured leaves. The overall appearance is a lush, multi-layered green wall.
