- X4
  - (If using a Light Bar)

TOOLS NEEDED

Sudbury Elastomeric Marine Sealant is recommended. To purchase call 800-655-7922 or visit www.seaviewglobal.com
1 Insert the four nuts into the adapter plate.

2 Apply marine adhesive sealant along the lip in the center hole on the adapter plate.

3 Route the cabling through the black rubber grommet. Be sure that the lip of the adapter plate sits into the groove on the grommet.

**TIP**
Place the connector of the cable into a plastic bag. Apply Vasoline to the exterior of the plastic bag. Then try routing the connector/cable through the black rubber grommet.
4 Insert the bolts into the adapter plate as shown for your electronics.

5 Attach the satellite dome to the adapter plate, and secure with the hardware for your electronics.
6 Attach the lower adapter plate to the Seaview mount with the eight 5/16-18 x 1” bolts and nylon washers.

7 Apply marine adhesive sealant to the circular groove on the under side of the adapter plate. Then place the adapter plate onto the lower adapter plate. Make sure that the bolt holes line up.
Secure the two adapter plates together with the four 1/4-20x1” bolts and nylon shoulder washers.
OPTIONAL ACCESSORIES
Call 800-655-7922 or visit www.seaviewglobal.com for available accessories.

LIGHT BARS

LTB-R
Fits closed dome radars.

LTB-S
Fits 20” or smaller satdomes.

LIGHT BAR TOPS

LTBP-1197
Perko 1197 Light.

LTBA-7800
Attwood LED Light.

LTBU1A1197
Light Bar Top with Perko 1197 Light, can fit GPS.

LTBU1A800
Light Bar Top with Attwood LED Light, can fit GPS.

SPREADER KIT

SP1-MOD
Allows user to mount GPS units or antennas onto a Seaview Modular Mount.
