- (14SB) (X8)
- (CSWASHER) (X8)
- (14SB) (X8)
- 5/16-18 x 1 1/2" (X4)

TOOLS NEEDED

Sudbury Elastomeric Marine Sealant is recommended. To purchase call 800-655-7922 or visit www.seaviewglobal.com
1 Secure the lower adapter plate to the Seaview mount with the eight 5/16-18x1" bolts and nylon washers.

Make sure to use the provided modular top gasket provided prior to installing the top plate (refer to your modular mount instructions for the gasket).

2 Insert the four nuts into the top adapter plate as shown (note this step may have already been done for you). Then insert the rubber grommet into the hole, making sure that the lip fits into the grommet.

TIP
Place the connector of the cable into a plastic bag. Apply Vasoline to the exterior of the plastic bag. Then try routing the connector/cable through the black rubber grommet.
3 Bolt the dome to the top plate using electronic manufacturers hardware recommendation.

4 Attach the satellite dome to the adapter plate using electronic manufacturers suggested hardware.
Apply marine adhesive sealant to the circular groove on the underside of the top adapter plate. Route the cables through the adapter plates and rubber grommet. Secure the adapter plates together with the four 1/4-20 x 1” bolts and nylon shoulder washers.
OPTIONAL ACCESSORIES
Call 800-655-7922 or visit www.seaviewglobal.com for available accessories.

LIGHT BARS

LTB-R
Fits closed dome radars.

LTB-S
Fits 20” or smaller satdomes.

LIGHT BAR TOPS

LTBP-1197
Perko 1197 Light.

LTBAP1697
Perko 1697 LED light.

LTBU1A1197
Light Bar Top with Perko 1197 Light, can fit GPS.

LTBU1A800
Light Bar Top with Attwood LED Light, can fit GPS.

SPREADER KIT

SP1-MOD
Allows user to mount GPS units or antennas onto a Seaview Modular Mount.
