PARTS INCLUDED

x2  x1  x1

TOOLS NEEDED

Sudbury Elastomeric Marine Sealant is recommended. To purchase call 800-655-7922 or visit www.seaviewglobal.com.
1 Insert the Light Bar into the back of the Seaview mount.

2 Place the rubber sleeve around the Light Bar then place the white plastic adapter on top. Be sure that the adapter locks into place onto the sleeve. The four bolt holes on the adapter should line up to the four holes on the Seaview Top Plate.

3 Apply soapy water onto the stainless steel bracket as shown here.
4 Insert the bracket into the Top Plate bolt holes as shown.

5 Secure the stainless steel bracket in place with the spacer and handles.
   a. Use the two 5/16”x1” bolts that came with your Light Bar to secure the other side of the assembly. Engage first couple of threads to just hold the stainless steel saddle.
   b. Slide spacer over studs.
   c. Handle should be down (parallel to studs) to engage threads, as shown in figure 1.
   d. Rotate clockwise to tighten.
   e. Tighten 5/16”x1” bolts until snug.

---

Figure 1.
To loosen clamp assembly pull both handles down and twist counter clockwise.
OPTIONAL ACCESSORIES
Call 800-655-7922 or visit www.seaviewglobal.com for available accessories.

LIGHT BAR TOPS
