

WARRANTY POLICY

We (Seaview) warrant our own products to be free from defects in materials and workmanship for a period of THREE (3) YEARS on parts from the purchased date of the product.

Travel, shipping or other incurred expenses are not covered by this warranty; Seaview is not responsible for any direct, indirect, special, incidental, or consequential damages or liabilities that may arise from any warranty event.

Seaview will, at its sole discretion, repair or replace any components which fail in normal use. If the warranty applies to you, Seaview will not charge you for parts on warranty repairs or replacements (warranty replacement will be honored on parts only). However, the cost of transporting your warranted product to Seaview for repair or replacement is your responsibility and is not covered by Seaview. Items in question must be accompanied by the sales receipt.

The warranty does not cover failures due to flaws or damage due to improper installation and/or improper product care, abuse, misuse, accident, or extend to items subjected to unauthorized alteration or repairs.

Seaview reserves the right to modify and change the design and specification of its products without notice. Such changes will not entitle the Customer to claim replacement or refund under this warranty.
