## Gly-Star K Plus® Group 9 Herbicide | EPA Reg. Number: 42750-122

A high load, potassium-based glyphosate formulation combines with a fully loaded surfactant system to control annual and perennial weeds with no soil residual activity. Labeled for over-the-top applications on Roundup® Ready crops.

**Active:** 5.5 lbs/gal glyphosate potassium salt (4.5 lbs glyphosate acid)

**Labeled Crops:** Cereal crops, non Roundup® Ready corn, cotton, sorghum (milo), soybeans, oil seed crops and more

**Package unit:** 2 x 2.5 gal, 30 gal, NR 265 | Bulk

**Compare to active in:** Roundup® Weathermax®, Roundup Powermax®, Roundup Powermax® II

## Gly Star® 5 Extra Group 9 Herbicide | EPA Reg. Number: 42750-59

A highly concentrated formulation of glyphosate combined with a fully loaded surfactant system delivers consistent, non-selective broad-spectrum control of annual and perennial weeds, woody brush and trees.

**Active:** 5.4 lbs/gal glyphosate isopropylamine salt (4.0 lbs glyphosate acid)

**Labeled Crops:** Roundup® Ready corn, soybeans, canola and cotton as well as burndown and post-harvest application on many additional crops

**Package unit:** 2 x 2.5 gal, 30 gal, NR 265 | Bulk

## Gly-Star Plus® Group 9 Herbicide | EPA Reg. Number: 42750-61

A non-selective, post-emergent systemic herbicide with a fully loaded surfactant system that promotes rapid burndown of many grasses and broadleaf weeds, woody brush and trees in reduced tillage and fallow applications, with no soil residual activity. Labeled for over-the-top applications on Roundup® Ready crops, with no additional surfactant required.

**Active:** 4.0 lbs/gal glyphosate isopropylamine salt (3.0 lbs glyphosate acid)

**Labeled Crops:** Roundup® Ready corn, soybeans, sugar beets, canola and cotton as well as burndown and post-harvest application on many additional crops

**Package unit:** 4 x 1 gal, 2 x 2.5 gal, 30 gal, NR 265 | Bulk

**Compare to active in:** Roundup Ultra®

## Aqua Star® Group 9 Herbicide | EPA Reg. Number: 42750-59

**Labeled for aquatic use.** A surfactant free, high-load glyphosate formulation that can be applied to emerged weeds in all flowing, nonflowing or transient bodies of fresh and brackish water.

**Active:** 5.4 lbs/gal glyphosate isopropylamine salt (4.0 lbs glyphosate acid)

**Labeled Crops:** Aquatic and non-crop sites

**Package unit:** 2 x 2.5 gal, 30 gal, NR 265

**Compare to active in:** Rodeo®

## Gly Star® Original Group 9 Herbicide | EPA Reg. Number: 42750-60

A standard glyphosate formulation with no soil residual activity that offers superior performance in the control of annual and perennial weeds, woody brush, and trees. This product requires a surfactant and is labeled for over-the-top applications on Roundup® Ready crops and requires the use of surfactants and/or other additives.

**Active:** 4.0 lbs/gal glyphosate isopropylamine salt (3.0 lbs glyphosate acid)

**Labeled Crops:** Roundup® Ready corn, soybeans, canola and cotton as well as burndown and post-harvest application on many additional crops

**Package unit:** 2 x 2.5 gal, 30 gal, NR 265 | Bulk

**Compare to active in:** Roundup® Original
