Hi-Light®

Spray Indicator

Application tips: Hi-Light® spray indicator is a temporary colorant for marking spray applications. By adding Hi-Light to the spraying system, spray application personnel are able to accurately and uniformly apply pesticides. Hi-Light is compatible with most chemical compounds and is used in applications ranging from broadcasting of soil sterilants to spot treating with brush control products. Hi-Light is easily removed from application equipment and economical to use.

Hi-Light provides the applicator an extremely economical marker for broadcast, backpack sprayer, or general spot application use. Avoid costly misapplication of pesticides by using Hi-Light spray indicator to see where you have been and where you are going.

This product is non-hazardous under OSHA standard 29 CFR1910.1200.

Suggested use chart

PER 100 GALLONS (380 LITERS) OF SOLUTION

| Area to be Applied | Rate |
|--|------------------------------|
| Gravel, bare ground, substations | 6 - 12 fl oz (175 - 355 ml) |
| Roadside rights-of-way, industrial vegetation | 12 - 16 fl oz (355 - 475 ml) |
| Utility rights-of-way, brush, forestry, railroad use | 16 - 32 fl oz (475 - 945 ml) |

Rates for application of Hi-Light when used with backpack or small sprayer

| Tank size | Suggested amount |
|-------------|------------------------------|
| 1 Gallon | 1/2 fl oz (15 ml) |
| 30 Gallons | 6 - 10 fl oz (175 - 300 ml) |
| 100 Gallons | 16 - 32 fl oz (475 - 945 ml) |
