

TAKE AIM AT PROBLEM WEEDS WITH LOW-RATE LONGBOW™ EC

New from Nufarm, Longbow™ EC Herbicide spans multiple row crops to strengthen control of broadleaf weeds. At very low use rates, Longbow is an excellent tank mix partner with most burndown, non-selective herbicides for fast, effective broadleaf weed control. Ideal pre-plant tool, particularly in no-fill situations.

COMPETITIVE ADVANTAGES

FLEXIBLE TANK-MIX TOOL FOR BETTER RESULTS

- Wide spectrum broadleaf weed control
- Fast-acting weed control
- Excellent tank-mix partner
 - Compatible with more than 45 crops or crop groups
- Low use rates
- Very broad crop spectrum
- Labeled for herbicide and harvest aid uses
- Convenient package size for easy handling

AT-A-GLANCE INFO

EPA REG. NO	71368-133
ACTIVE INGR.	carfentrazone-ethyl (22.3%)
FORMULATION	liquid
CHEM. FAMILY	triazolinone
GROUP NO.	14
MODE OF ACT.	PPO inhibitor
REI	12 hours
SIGNAL WORD	caution
RESTRICTED	no
PACKAGE SIZE	1 quart container (4 per case)
