

TECHNICAL FACT SHEET

Unsurpassed performance for volunteer corn and grass control

Quiz™ is a selective herbicide for postemergence control of problem grass weeds including volunteer corn and foxtails, and perennial grasses like quackgrass and johnsongrass.

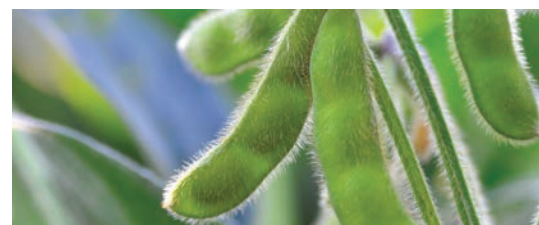

Labeled for soybeans, canola, cotton, sugar beets, sunflowers and many other crops, Quiz provides application flexibility, tank mix compatibility and superior crop safety features, plus improved economic value compared to market standards.

GLYPHOSATE - TOLERANT VOLUNTEER CORN

Quiz delivers outstanding control of glyphosate-tolerant volunteer corn in soybeans. Its performance extends across Roundup Ready®, LibertyLink®, IMI-corn or conventional trait corn.

COMPETITIVE ADVANTAGES

Extensively field-tested, Quiz delivers equal performance to Assure® II for control of volunteer corn in soybeans.

On larger volunteer corn plants, Quiz offers equal to or better performance than clethodim-based herbicides like Select® and Select Max®.
