TRIUMPH® RTU

HERBICIDE

Active Ingredients:

TRIUMPH® RTU is powered by the active ingredients picloram and 2,4-D, members of the synthetic auxin chemical family. Formulated as a ready-to-use product, it contains 3 % or 0.27 lb/gallon acid equivalent of picloram and 11.2% or 1.00 lb/gallon acid equivalent of 2,4-D. Blue dye is added to provide a visual aid of application placement.

Use Tips / For Best Results:

- Do not contaminate cropland, water, or irrigation ditches
- For some difficult to control species, re-treatment may be necessary 1 year following initial treatment.
- Using undiluted Alligare Triumph® RTU Herbicide, paint or spray cut surfaces of freshly cut stumps and stubs. Thoroughly wet the cambium area next to the bark.
