Caution Signal Word
Group 4 Synthetic Auxins
Rate 3-7 oz/acre

COMMON TANK MIX

Promenade® SC
Glyphosate 4 Plus
Triumph® 22K
MSM 60
2,4-D

PACK SIZE

6 x 1 Quart
2 x 2.5 Gallon

Whetstone™ provides versatile season-long control of selective annual, perennial & biennial broadleaf weeds including invasive and noxious weeds and certain woody plants and vines.

- Low use rate
- For use with pre & post-emergent treatments
- Whetstone™ is registered under the EPA's Reduced Risk Pesticide Initiative
- Can be used up to the water's edge
- Tank mix friendly formulation may be used alone or in combination with other herbicides to broaden target weeds and/or reduce herbicide resistance

Bareground/Railroad

Roadside/ROW

Range & Pasture

WHETSTONE™

SELECTIVE WEED CONTROL

ACTIVE INGREDIENTS

Aminopyralid 40.6%
2.0 lb/gal acid equivalent

WHETSTONE™ VERSATILITY

- Excellent choice for clearing established perennial broadleaf weeds from new and current bareground sites
- Can be used as an additive for individual brush treatments in selective situations

AMINOPYRALID STEWARDSHIP

- Do not use hay or straw from areas treated with this product within the preceding 18-months for compost.
- Do not use any manure from animals feeding on hay treated with this product in compost.
