# Flutto™ | Flexible Tambour Panels

WVH®'s Flutto™ range draws from classic inspiration, providing a way to elevating your interiors with an on-trend looks and an enduring design.

Suitable for any renovation project, Flutto™ has a high-end wood-effect panel finish, creating truly affordable, refined interiors. Its flexibility makes it ideal for a huge range of projects, while also being easy to install, ensuring fitting into your unique space is hassle-free.

## Flexible panels

Enhance the features of your space, with flexible panels creating and enhancing curves, providing elegance in simplicity.

## Fire rating

The Flutto™ Flexible Tambour Panels have no fire rating.

## Care and maintenance

You can wipe the Flutto™ Flexible Tambour Panels clean with a dry cloth.

## Finishes

The Flutto® Flexible Tambour Panels have a real wood veneer finish

## No Acoustic Properties

The Flutto™ Flexible Tambour Panels are purely for decoration and offer no sound absorption.

# Installation Instructions

## How cut the Flutto™ Flexible Tambour Panels

To cut the Flutto™ Flexible Tambour Panels, a sharp, fine saw will need to be used to cut width ways and length ways.

## Tools needed

 Measuring tape

 Fine tooth or sharp saw

 Masking tape

 Level

 Adhesive glue

## How to install the Flutto™ Flexible Tambour Panels

The Flutto™ range has been designed to be installed with ease. Follow these quick and easy steps to fit your new panels, and redefine your space.

1. Ensure your surface is smooth, clean and dust-free before installing for the best adhesion.
2. Measure your space, and cut the panels as required - we recommend using a sharp, fine-tooth saw for a clean cut, and sanding off the excess.
3. Use a grab adhesive on the back of the panel, and press the panel to the surface.

For panel dimensions and technical drawings, please see [page 3-5](#).
