Care and maintenance

As viscose is a delicate fibre we recommend that it be cleaned professionally. Please use a suction only vacuum cleaner as a beater-bar vacuum cleaner could damage the pile. Do not spill liquids as this will damage the pile. Never rub a spill, only blot with a clean white cotton cloth. If a stain cannot be removed seek specialist advice. Do not machine wash. All natural wool rugs shed loose fibre. Loose threads should be trimmed with scissors. We recommend the use of an anti-slip pad to reduce trip hazards and protect the floor surface. To protect the colours, keep away from direct sunlight. Keep away from fire.
