

# INSTRUCTIONS FOR FUCHSI NASAL ASPIRATOR

“

”

## Your baby has a cold and the little nose is completely blocked?

Good that you have chosen the Fuchsi nasal aspirator! The Fuchsi nasal aspirator was just the right decision for quick help with annoying cold of your toddler.

Since babies breathe mainly through the nose, a cold is particularly unpleasant. So that your baby can breathe freely again and sleep and drink better, the Fuchsi nasal aspirator will help your baby immediately. The removal of secretion from the nasal cavities will accelerate recovery in case of sickness, improve breathing and general well-being, and help in the prevention of disease.

In order to guarantee smooth handling, we will send you detailed instructions on how to use the nasal aspirator.

## How to use the Fuchsi nasal aspirator?

Place your baby in a sitting / upright position. Infants may also be lying , but in this case the head should then be supported and slightly elevated.

The Fuchsi nasal aspirator is specially designed so that it can be operated with one hand and support the baby's head with the other.

Now take the mouthpiece at the end of the tube in the mouth and insert the soft silicone piece at the other end of the tube into the nose of your baby. Be careful not to insert the suction tip too far into your baby's nose.

Suck gently but effectively ,to remove the nasal secretions by using the negative pressure generated by the mouth from the nose. Since the strength of the suction is generated manually, you can adjust the suction power as needed.

Do not worry: the secretion which is sucked off collects in the collecting container and will not reach your mouth.

The application takes only a few seconds, is painless and comes without medication.

## Tips & Tricks for use:

- 1 Of course, your baby must first get used to the nasal aspirator. Therefore, test the device first on yourself. Make sure that the Fuchsi nasal aspirator works reliably. Show the child that the application is not painful, but fun. Distract your child. It will certainly take some applications until your child has learned that there is nothing to fear of. From then on it gets easier and easier. Make the nose sucking a funny experience.
- 2 If it refuses to cooperate, someone else can help and easily hold on to the child.
- 3 Es kann helfen das eine Nasenloch zuzuhalten, während Sie das andere absaugen.
- 4 The Fuchsi nasal aspirator is not only helpful for colds, but also after a round on the dusty football field or an afternoon in the sandbox he freed the children's nose reliably from unwanted dust, sand etc. So you get the nose of your baby easily and gently free again and your baby can sleep and drink carefree again!

**Note:** If additional symptoms, such as fever, are added to the cold, or if the baby drinks too little despite frequent use, the pediatrician should always be consulted.

## How should the Fuchsi nasal aspirator be cleaned?

You can easily dismantle and reassemble the nasal aspirator. This makes cleaning especially easy. You can easily clean it with warm water and a mild soap, and then dry thoroughly. But it is also suitable for the dishwasher.

To guarantee a particularly high standard of hygiene, you can also boil the nasal aspirator.

The FUCHSI nasal aspirator is delivered directly with 2 spare attachments! So you can also use the nasal aspirator, if you need to clean the other essays, or have already used on the way!

The FUCHSI nasal aspirator is also completely Filterless, therefore you do not have to clean or buy filters, but can use them indefinitely!

The cleaned nasal aspirator can then be stored in its associated case waiting for its next use.
