## Fundraising with PeachSkinSheets

## Why PeachSkinSheets?

Thinking about PeachSkinSheets for your next fundraiser? We've put together this handy guide for you on your journey to raise money for your organization in the easiest way possible!

## Price

We offer the highest payout in the industry. The fundraising selling price is $\$ 64.95$ with a $\$ 20.00$ profit on each set sold. Drives usually last 2-3 weeks, depending on your timeframe.

## Online Sales

Online Fundraising is unique to our company - it just made sense! Thanks to our fundraising site, we allow online sales so team members can sell to out of state family and friends. This gives everyone the opportunity to support your organization regardless of time or distance. In addition, we provide free swatches to your team members but also allow potential customers to order free swatches on our website. This makes online ordering as risk free as possible! Online orders do require the customer to pay their own shipping, but they typically receive their product within 5-7 business days as opposed to waiting until the drive ends. This results in more sales for you, because the sooner they receive their sheets, the sooner they fall in love!

## Social Media

We encourage organizations to take advantage of social media, and share your fundraiser as well as a link to our site. We do ask that you refrain from posting the code online on the official PeachSkinSheets Facebook page or on any other social media feed, including your own. Please Note: sharing codes on coupon sites is strictly prohibited, and will result in a new code being generated during the drive. As the revised code would need to be communicated to the organization's team, momentum can be adversely affected.

## Selling Points

In addition to these amazing benefits, there are plenty of selling points to help you sell as much as possible! Our fundraising program is perfect for schools, hospitals, athletic teams, clubs, religious organizations and more, simply because everyone needs sheets. Most homes also have $3-4$ beds which allows for multiple sales. Plus unlike fundraisers that use food like candy, sheets won't cause allergic reactions or weight gain. Sales are also based on individual purchases, so there is no need to sell a subscription or worry about expiration dates.
