## COOL 15-275

Compact Non-Cycling Refrigerated Dryer

## Chicago Pneumatic

## Compact Non-Cycling Refrigerated Dryer

## Refrigerated dryers with a small footprint

Experience the innovation and worry-free operation of the Chicago Pneumatic COOL refrigerated dryers. They are the perfect solution to clean your air for car shops, tire inflation, spray painting, packaging, inject molding, pneumatic tools and control systems. With their compact design, easy access to key components and simple to install, these dryers produce an environment that lets you focus on growing your business and not worrying about your air system.

| MODEL | USE W/ hp | $\begin{gathered} \text { scfm @ } \\ 100 \text { psig } \end{gathered}$ | MAX PRESSURE (psig) | V/ph/hz | REFRIGERANT | $\begin{gathered} L \times W \times H \\ \text { (in) } \end{gathered}$ | WEIGHT <br> (lb) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| COOL 15 (C0) | 3 | 15 | 232 | 115/1/60 | R134a | $9 \times 22 \times 22$ | 42 |
| COOL 25 (C1) | 5-7.5 | 25 | 232 | 115/1/60 | R134a | $9 \times 22 \times 22$ | 42 |
| COOL 35 (C2) | 10 | 35 | 232 | 115/1/60 | R134a | $9 \times 22 \times 22$ | 42 |
| COOL 50 (C3) | 15 | 50 | 232 | 115/1/60 | R134a | $9 \times 22 \times 22$ | 44 |
| COOL 65 (C4) | 15 | 65 | 232 | 115/1/60 | R134a | $9 \times 22 \times 22$ | 55 |
| COOL 75 (C5) | 20 | 75 | 188 | 115/1/60 | R134a | $9 \times 22 \times 22$ | 59 |
| COOL 100 (C6) | 25 | 100 | 188 | 115/1/60 | R134a | $9 \times 22 \times 22$ | 66 |
| COOL 125 (C7) | 30 | 125 | 188 | 230/1/60 | R404A | $13 \times 28 \times 39$ | 114 |
| COOL 150 (C7.5) | 40 | 150 | 188 | 230/1/60 | R404A | $13 \times 28 \times 39$ | 125 |
| COOL 200 (C8) | 40 | 200 | 188 | 230/1/60 | R404A | $13 \times 28 \times 39$ | 130 |
| COOL 250 (C9) | 50 | 250 | 188 | 230/1/60 | R404A | $13 \times 28 \times 39$ | 176 |
| COOL 275 (C10) | 60 | 275 | 188 | 230/1/60 | R404A | $13 \times 28 \times 39$ | 176 |

Reference conditions: $100 \mathrm{psi}, 95^{\circ} \mathrm{F}$ inlet temperature, $77^{\circ} \mathrm{F}$ ambient temperature and $45^{\circ} \mathrm{F}$ pressure dewpoint

## Standard Features:

- Eliminates water, oil and dirt from air systems
- Prevents damage to tools and cylinders, adding to their longevity
- Fewer finished product defects
- Prevents "fisheye" paint splotches
- Reduces operational downtime
- Increases profitability and productivity
- Eliminates air line purging
- Compact design for small footprint
- Quality components for efficient cooling
- Internal layout and enclosure allow for quiet operation
- Plug and play installation
- Simple and reliable timer drain
- Hot gas bypass protection
- Dewpoint indication
- cUL approved
