### No more annoying dropped calls, poor call quality & slow Internet!

The WilsonPro A500 (50 Ohm) from Wilson Electronics is the most popular home and small office cell phone signal booster we currently offer. It features a graphical uplink & downlink meter and self-optimizing design for easy install & maintenance.

- ICASA Approved. Boosts 3G & 4G for any home or building up to 500m<sup>2</sup>
- Works for all phones & carriers. MTN, Cell C, Vodacom and Telkom
- Complete kit: all parts included, easy install
- Our most popular home and small office booster
- Better talk, text & internet guaranteed

With up to +70 dB gain of power, it greatly enhances 4G LTE and 3G cell service for all your wireless cellular devices (smartphones, tablets, notebooks, hotspots, etc.) on any carrier in South Africa.

There are no monthly fees nor does it need to be connected to any internet source (wifi or landline) to work. It simply amplifies your existing in-building cellular service up to 32X for better talk, text, and faster internet.

Backed by a 1-year manufacturer warranty, South African based technical support team, 30-day better signal or money back guarantee, and lifetime technical support.

**Say Goodbye to no-signal frustrations.**
