

Arm Height

Measure from the ground to the top to bottom of the chair.

*Start measurement at the leg base or arms, whichever is the widest point.

Width

Measure the widest side of the chair from left to right.

*Start measurement at the leg base or arms, whichever is the widest point.

Depth

Measure the deepest side, adjacent to the width, from the back to front of the chair.

*Start measurement at the top or bottom of the chair back if the furniture has a curvature design.

Height

Measure from the ground to the top of the chair.

*We recommend a cover 1-2 inches shorter than the furniture for breathability.
