Good To Know

- store oils away from light
- sediment in oils and waters is normal
- oil colors and water scent varies due to small batch & location variations
- oils and waters shelf life is ~2 years
- pomegranate oil can fade when exposed to light
- always apply oils on warm, clean and slightly wet skin
- use **Hoba as #1** oil for everything
- all natural products take time to work - results can take 4-6 weeks, don't switch routines or use many products at once
- mix rose and geranium for moisturizing and toning effect, layer oils from lighter to heavier - from Hoba, to Granate, to Rosehip
