Paper Cup Flying Ghost

Materials:

- Paper Cup
- White Paper
- Black Marker
- White Wool
- Googly Eyes
- Scissors/Glue/Double-Sided Tape

To make your Paper Cup Ghost fly:

- Make two holes in the base of your cup (you may have to have an adult help you with this)
- Cut a long length of white wool (about two arms spans worth)
- Thread both ends of the wool through the base of the cup and pull the ends into the cup and out the other side. Tie the two ends together.
- Hang the looped end of the wool (eg. on a door handle or hook) and gently pull the two threads out to each side.
- As you open your hands out further, your ghost will 'fly' to the top of the wool. When you bring your hands in together again, the ghost will 'fly' back down!
