THE HAND EMBROIDERED COLLECTION  
ROOME LONDON WITH GERALDINE LARKIN

ROOME LONDON with GERALDINE LARKIN  
[couture furniture collection](#) is the amalgamation of  
centuries' old skills and craftsmanship uplifted with  
modern day materials and design interpretations.

## COUTURE FURNITURE

The collaboration is the result of ROOME LONDON's founders Laura and Caroline Allnatt's vision for reimagining upholstered furniture and creatively combining cabinetry and textiles. The Allnatt's vision for creating decorative furniture has seen collaborations with influential fashion designers and artists. These collaborations have resulted in distinct and original furniture pieces that are featured in prestigious global residencies and within the press.

GERALDINE LARKIN is responsible for the reinvention of the ancient craft of embroidery. She has collaborated with leaders in the fashion world to produce some of the most recognisable fashion pieces that have challenged the history of dress with names such as Alexander McQueen, YSL, Fendi, Prada, Gucci with Tom Ford, Narciso Rodriguez, Ralph Lauren, Marni, Donna Karen, Jil Sander and Louis Vuitton.

Geraldine and Narciso Rodriguez collaborated on the iconic dress worn famously by Michelle Obama when she took to the stage on election night in 2008. After 20 years of designing and producing hand embroidery for international fashion houses, Geraldine added an interiors arm to her business, bridging the worlds of fashion and architecture in 2010.

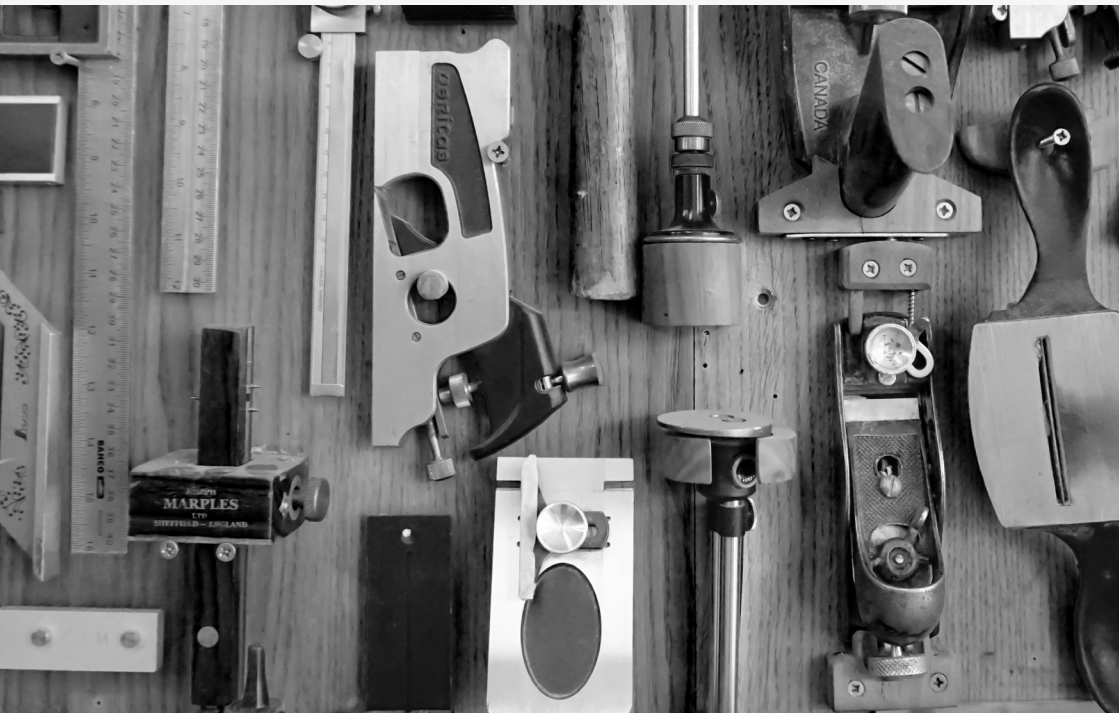

# DESIGNED IN ENGLAND, MADE BY SHAMSIAN

Imaginative and impeccable design is at the heart of the collection and every detail is exceptionally crafted by the master craftspeople at Shamsian, ensuring an exquisite finish to every luxurious piece.

Consideration is given to every component and part of the design journey. Everything evolves from a hand drawn original, brought to life by traditional and innovative craftsmanship methods.

The bespoke personalisation of each piece encourages long lasting pieces to treasure through generations and the upholstered element of the design can be altered over time to suit changing moods and design themes.
