REIMAGINING UPHOLSTERED
FURNITURE

IMAGINATIVE DESIGN, IMPECCABLE CRAFTSMANSHIP

ROOME LONDON is a bold concept in luxury furniture design that elegantly bridges the gap between art, fashion and furniture.

Working with the world's most talented fashion designers, illustrators and artists, we translate evocative patterns by use of super fine upholstery methods and showcase them with elegant furniture shapes, creating distinctive and original pieces.

“

Bold, imaginative design drives everything we do - from carefully curated, eye-catching patterns to the striking furniture shapes that showcase them.

We are passionate about craftsmanship and work with the most talented artisans to create high quality pieces that are as beautiful as they are functional.

MADE TO MEASURE

Everything evolves from a hand drawn original, brought to life by traditional and innovative craftsmanship methods and inspired by the world of fashion and art.

The bespoke personalisation of each piece encourages long lasting pieces to treasure through generations and the upholstered element of the design can be altered over time to suit changing moods and design themes.
