Dear:

Mrs Magnus

Hello Mrs Magnus and Family. Happy New Year !! How are you? I am always great here and I hope you and little Julian great too. Thank you very much for the video you made. That made me very very happy and I love it. It touch me your video. I never imagined to get a wonderful video like that from you. I feel so supported and loved. And again I said thank you very much.

Talk about christmass and new year. It was very memorable. December I have holidays 3 weeks. The first week, I went on holiday in East Sumba with my friends. During those days we went to Walakiri beach for doing some relaxation. We enjoyed our time so much. In east Sumba I find the new family. The family was so friendly and I love them. The second week, I came back to south west Sumba to celebrate christmass with my family. When I came back I made cakes with my sisters and ate together. We also went to my mother's village to greeted our extended family. After I celebrate christmass, I helped my uncle pull some grass around our home. The last week, I came back to SHF to volunteer for the rest of holiday. At SHF I meet my friends and my teachers again on December 2019. And we had the new year party together. It was fun because the guests also joined us. The decoration was so beautiful. I like it so much. What you and your family happy on December and January? Would you please share it? This year I promised to myself to be successful. I believe I can do it. In this year I wanted to learn more about my coremodule and works hard more. I hope in the future, I can get the job and I work and do the best and to be professional therapist in the hotel industry.

Do you have any suggest on how to be successful??
And what is your family wishes for this year ahead?
Again, thank you very much and see you in 2020. Always great and healthy. God Bless you !!!

Warmest Regards

Tina
