PATTERN NOTES

This afghan is worked using the intarsia method. On the last stitch of one color section, work the first half of the stitch in the current color. Work the second half of the stitch in the next color. Use a separate length of color for each CC section. Each full chevron requires approximately 35 yds/19 grams of a color. You will find this helpful when measuring out lengths. Use diagrams as a guide for measuring out lengths. For MC chevrons, use full balls. MC lengths can be carried up through each row of chevrons.
