PATTERN NOTES

The Lunaria Socks are a modern, colorful celebration of spring and are named after the Lunaria plant, which has four-petaled flowers that bloom in mid to late spring. For style inspiration, the Lunaria Socks draw on the floral dresses and ruffled cotton socks I wore to childhood Easter celebrations, updated with tiny bobbles and microstripes. The Lunaria socks are designed to hit mid-ankle, perfect for when the weather starts warming up.

These socks are knit in the round from the cuff down and feature a heel flap and gusset. The top of the cuff features a picot edge.

There are two versions offered of the Leg Chart provided for your convenience.

The regular version reflects the samples shown, but an Inverse Leg Chart is included for swapping the MC and CC.

Note Regarding Foot Length: Yarn estimates are based on a sock foot length of 8½ (9½, 10½, 11½)". You may need more or less yarn depending on foot length. For the best fit, knit socks ½" shorter than actual foot length.

The below links will be helpful as you work through the stripes in the Leg Chart and as you complete the Picot Edging:

For jogless stripes, see this tutorial:
