## PATTERN NOTES

Known for her amazing pin loom designs, Gabi van Tassell has blown us away with her use of soft, springy Cobblestone in this stunning wrap! Pebbled Pathways makes the most of each ball of yarn – creating a generously sized wrap that’s perfect for warding off the autumn breeze.

The wrap is made of hexagon modules that are woven individually, then sewn together.

If you are new to hexagon weaving, practice a few hexagons, following the instructions booklet that came with your loom kit. If you are a visual learner, you can also watch “How to Weave a Hexagon on a Pin Loom” on YouTube (<https://youtu.be/w2dBsmq0H7c>).

## PATTERN BEGINS

### Weaving

Weave 70 hexagons in 104 Tulip (color B).

Weave 68 hexagons in 103 Mardi Gras (color A).

Leave the tails for sewing the hexagons together (recommended) or sew them in at this point if you wish to use separate yarn for the assembly.

68 Hexagons in 103 Mardi Gras; 70 Hexagons in 104 Tulip

### Assembly

Follow the chart to assemble the shawl. Please note that the chart shows the wrong side of the shawl. Assemble the shawl following the next three steps:

- 1) On a large towel, flannel sheet, or felt, lay out the hexagons as shown on the diagram (see next page). For best results, have the hexagons all point in the same direction: Starting tail pointing away from you, end tail pointing to the left.

Step 1: Laying out the hexagons according to the diagram.

- 2) Sew hexagons together into strips to form rows. For example: Sew the hexagons that are lined up in row 1 into a long strip. Use whip stitch or mattress stitch. Then sew the hexagons that are lined up in the second row. Repeat for remaining four rows.

- 3) Sew the strips together, using whipstitch.

Steps 2 & 3: Sew Hexagons together using whipstitch.

### FINISHING

Weave in any remaining ends. Gently hand wash and air dry for best results.
