IDEAS FOR BATH TIME

INSPIRING CREATIVITY, CONNECTION & JOY!

dabble & dollop

Bath time should be fun time...but as we parents know, when the Littles get a bit older, sometimes bath time can become...well, Struggle Time. We created Dabble & Dollop to help solve these Bathtime Blues. Our products use texture and scent to help inspire creativity and help kids create custom bathtime experiences that are actually fun!

Sometimes, products alone are not enough, and even kids need extra inspiration. So, we've created this book to help provide some ideas and strategies to transform bath time from a personal care routine into moments of relaxation, imagination, connection, and creativity.

In this book, you'll find 30 themed baths that engage all the senses - sight, hearing, smell, imagination, and touch. Grab your phone, or even better, a (waterproof?) Bluetooth speaker. You'll see that we suggest playing sounds, songs, or even that perfect playlist. We'll also suggest themed lighting to help set the mood.

Each themed bath involves different toys, textures, and ideas to make bath time fun time. And, with 30 themed baths, there are enough ideas to make bath time special each day of the month. So we can all get Creatively Clean.

TIPS FOR THE BEST BATH TIME EXPERIENCE:

Gather the supplies in advance. You'll need the bath toys that complement each bath theme, washcloths or sponges, bubble bath or child-safe soap, and a cup or pitcher for rinsing. Be sure to have a warm, fluffy towel ready for after bath.

Prepare the bath: Fill the tub with warm water and add a generous amount of soothing bubble bath or soap. Make sure the water temperature is comfortable for your child.

Set the atmosphere: It's easy to get creative with lighting and sound. Mix up bath time by rotating soft, ambient lighting or battery-operated candles. Consider playing soft background music or nature sounds to enhance the experience. This helps make the bath a full sensory experience.

Incorporate cleaning: As you start a themed bath, remind your child to take breaks to wash themselves with a washcloth or sponge. Use the opportunity to teach them proper hygiene habits, such as washing their hair and scrubbing their body.

Encourage exploration: Challenge your child to think about the themes, characters, and settings, and to share their thoughts and opinions. This helps to develop their critical thinking and communication skills.

End with a reward: Reward your child with a small treat or a book-themed bedtime story to celebrate their bath time accomplishments.

LET'S DIVE IN!

One by one, introduce each scented bath product, allowing them to smell the product without seeing the label. Encourage them to guess which scent they smelled and encourage sensory exploration - between each scent, ask your child to describe the fragrance and how it makes them feel.
