St. Thomas

Thank you for your interest in our exciting new line of greeting cards!

St. Thomas Greetings was established in summer, 2017 by an enterprising New Englander with a love for the traditional practice of sending greeting cards to friends and family.

After nearly a year of designing and planning, we are thrilled to present our first collections, using original art and thoughtfully written messages. We offer greeting cards for those moments “when you need just the right words” to say what is in your heart, and to inspire and encourage others. Add your own personal message to make each one even more meaningful.

St. Thomas also takes our social responsibility seriously. A portion of the profit from every sale is donated to supporting good causes around the world, including feeding hungry children both at home and abroad. Our cards are printed on presses using 100% wind powered technology. We avoid the use of plastics and encourage recycling.

Our stunning, premium quality greeting cards are available wholesale to fine retailers everywhere.

Lisa Gibson studied design by squinting at values and patterns in many locations throughout her life. She explored creativity through photography, quilt making and pine needle basketry before learning that painting combines all of the elements she loves - color and design with a hands-on approach. Besides, she is a lousy seamstress. Her home is shared in Lincoln, MT with her family and spoiled house rabbit.

Kathleen Elam is an artist specializing in hummingbird photography. She uses a special technique for stopping the motion on the fast-moving wings. This allows the viewer to see the incredible details of the hummingbird and enjoy the uniqueness of each one. The magic is in the subject, however, as hummingbirds are such magnificent creatures. When hummingbirds are photographed with flowers, a synergy occurs that brings a special energy to the photographs.

Kathleen has lived in Southern California for over thirty years and enjoys exhibiting at local art events. She enjoys feeding and photographing the wild birds and creatures near her home.
