Erotic electro-stimulation is a popular way for men and women to enjoy better sex both solo and with a partner. Unlike vibrating and rotating sex toys, electro sex toys directly stimulate the nerve endings in the erogenous zones, creating sensual tingles and deep contractions in the pelvic floor that can lead some people to a hands-free orgasm.

The ElectraStim range of stimulators and sex toys have been designed with every kind of lover in mind. From dildos and prostate stimulators to electro spanking paddles and pinwheels, our range of erotic products caters for sex toy fans and BDSM players alike. Discover a new way of satisfying yourself and your partner with the throbbing, orgasmic thrill of ElectraStim sex toys.

**ELECTRASTIM FLICK – THE NEXT GENERATION**

A revolution in electro sex technology, ElectraStim Flick has seven built-in pattern settings and the ability to stimulate in rhythm with your movements. Whether you want to create your own pattern or stimulate in direct sympathy with your wrist actions during masturbation, the innovative Flick feature will be like nothing you have tried before.

Flick can be slow or fast, soft or hard - it will mimic the sensation that suits your (or your partner’s) desires. The ElectraStim Flick is available in single channel and dual channel formats, giving you even more options for play. The new generation ElectraStim Flick is also the first product of its kind to incorporate a USB rechargeable system, allowing Flick unit to be operated for up to 4 hours between charges.

**What is ElectraStim?**

Electro-stimulation is a popular way for men and women to enjoy better sex both solo and with a partner. **ELECTRASTIM FLICK – SINGLE-CHANNEL STIMULATOR**

Key Features

- Revolutionary “Flick” feature
- 7 built-in stimulation patterns
- 24 Intensity level LED display
- 5-level Flick display - 50 Flick levels
- USB rechargeable - no batteries required
- Slim, ergonomic design with soft-touch finish
- Durable control panel with tactile control buttons

---

**ElectraStim Flick**

![ElectraStim Flick](image)

- Output socket
- Intensity display (24 levels)
- Flick level display
- Intensity controls
- Pattern select
- Charge status
- Status LED
- On/Off
- USB charge socket

---

1
ElectraStim Flick Duo Stimulation Patterns

1. Continuous - Smooth stimulation to get the feeling of things
2. Alternating Wave - Slow and gentle wave/massage effect sweeping between the two outputs
3. Escalating Simultaneous Wave - Starting with a slow wave and steadily speeding up to a fast wave before slowing down again
4. Alternating Pulse - A low frequency bursting pattern
5. Escalating Simultaneous Pulse - Starting with a slow pulse and steadily speeding up to a fast pulse before slowing down again
6. Simultaneous Falling Rest - Pulsing pattern with an ever decreasing rest period until the stimulation is constant, then repeating
7. Alternating Dual Pulse - Medium rate pulse to each output followed by a high rate sequence
8. Rapid Fire Escalate - Firing an increasing number of pulses to each channel then restarting again

Flick Modes

1. Flick Output 1 - Output 1 responds to the Flick feature, output 2 is constant
2. Flick Output 2 - Output 2 responds to the Flick feature, output 1 is constant
3. Flick Output 1&2 - Both outputs respond to the Flick feature
4. Flick to Switch - The Flicking motion alternates the outputs
ElectraStim Flick Stimulation Packs

The ElectraStim Flick single-channel stimulator is available in two different packs containing accessories:

**ElectraStim Flick Pack EM60-E**

- ElectraStim “Flick” single-channel stimulator
- 4 x square self-adhesive electrode pads
- Stimulator output cable
- USB charging cable (plug adapter not included)
- Protective pouch
- Instructions

**ElectraStim Flick Multi-Pack EM60-M**

- ElectraStim “Flick” single-channel stimulator
- Cock/Scrotal adjustable stimulation loops + gel
- Vaginal/Anal stimulation probe + lube
- 4 x square self-adhesive electrode pads
- Stimulator output cable
- USB charging cable (plug adapter not included)
- Protective pouch
- Instructions

Share stimulation with your partner.
ElectraStim Flick Duo Stimulation Packs

The ElectraStim Flick Duo dual-channel (2 outputs) stimulator is also available in two different packs containing one or more accessories:

**ElectraStim Flick Duo Pack EM80-E**
- Contents:
  - ElectraStim “Flick Duo” dual-channel stimulator
  - 4 x square self-adhesive electrode pads
  - Stimulator output cables
  - USB charging cable (plug adapter not included)
  - Protective pouch
  - Instructions

**ElectraStim Flick Duo Multi-Pack EM80-M**
- Contents:
  - ElectraStim “Flick Duo” dual-channel stimulator
  - Cock/Scrotal adjustable stimulation loops + gel
  - Vaginal/Anal stimulation probe + lube
  - 4 x square self-adhesive electrode pads
  - Stimulator output cables
  - USB charging cable (plug adapter not included)
  - Protective pouch
  - Instructions
ElectraStim SensaVox

EM140 The ElectraStim SensaVox has been developed especially for the electro-stimulation connoisseur and those with a taste for feature-rich, quality products. The dual-channel SensaVox has stacks of features and heaps of finely-controlled power!

**Features & Benefits**
- 2 Independent Isolated output channels - This means you can use a quadri-polar or two bi-polar accessories at the same time
- High-Intensity output power – Power up directly from the mains or use a battery
- SensaVox Audio Input Feature - Mini external microphone supplied
- Voice-Controlled Stimulation and sound effects from included CD-ROM
- 9 Built-in modifiable programs - A wide range of programs for single and dual-channel operation.
- Full digital-control Interface
- Advanced ‘Auto Zero’ safety feature with bright LED displays – Output Intensity is clearly displayed from 0 to 99 on each channel
- Optimal ‘Multi-Turn’ digital Intensity control – Four full rotations of the positive-click intensity control knobs are required to get to level 99, but we doubt you will get all the way!
- Boost Feature – The intensity of both outputs is boosted by 25% at the push of a button
- Economy power-saving mode – Battery preservation features for prolonged play

**Kit Supplied**
- The ElectraStim EM140 Dual-Channel Digital Stimulator
- Worldwide mains power adapter
- Stimulator connecting cables (x2)
- Microphone
- Audio line-in cable
- 3.5mm jack coupling
- Audio effects CD-ROM
- Premium alkaline battery
- Comprehensive instructions
- Sturdy storage/carry case

*For use with all ElectraStim accessories*
**ElectraStim Controller**

The ElectraStim EM48-E “Controller” is the perfect stimulator for playful couples and Dom/sub games. With a range of up to 60m (200ft), you can tease, please or torment your lover from a distance using the discreet remote control. Whether you like to keep your play in the bedroom or you want to experiment in public, you’ll love this salacious stimulator.

**Features & Benefits**
- Control your partner’s pleasure remotely
- Perfect for Dom/sub play
- Long-range operation - up to 60 metres (200 feet)
- User-friendly Transmitter and Receiver units
- Multiple operating modes
- Microprocessor controlled
- 7 Stimulation modes
- 18 Stimulation intensity levels
- Boost feature – Increases power temporarily by 25%

**Trigger/Zap Mode**
- Multi-directional, high-sensitivity movement sensor
- Audible Receiver acknowledge beeper (can be muted)
- Ability to combine multiple transmitters/receivers
- Leather belt pouch,
- Conductive pads and batteries included

Q. If I want to use the ElectraStim “Controller” in public, which accessories should I use?
A. Any adjustable cock attachments, Silicone Noir Sirius and Nona and our Tadpole electrodes are the most discreet.
The ElectraStim Axis is the most advanced stimulator in our range and arguably the most versatile electro sex stimulator in the world. Revolutionising the way users incorporate electro into their erotic play, AXIS has ElectraStim’s custom tactile soft-press buttons, but can also be controlled using motion, gestures, proximity and sound. These ground-breaking control methods expand the potential for creative and fun electro stimulation in a wide variety of scenarios. The revolutionary technology inside AXIS is a world first for the electro sex category and nothing quite like it has been attempted in the wider sex toy industry.

With user-updatable firmware and a wide variety of features that will be enhanced with each update, AXIS is designed to remain at the cutting edge of electro sex technology for years to come.

• Bright and crisp blue OLED screen that displays modes, menus, battery meter and shows a live visual representation of the stimulation passing through each output.
• Dual output – powers 2 bipolar or 4 unipolar toys simultaneously
• 20+ pre-programmed wave and pulse patterns
• 99 Intensity Levels (same output power as SensaVox)
• Three-axis accelerometer for motion control (Flick and Tilt)
• Proximity sensor for contactless play
• Gesture sensor for hands-free intensity control
• Stereo line-in audio control
• Built-in stereo microphone control
• High capacity lithium-ion battery-rechargeable via USB. 80% charge in under an hour. Up to 8 hours play-time depending on intensity/use. Battery gauge will monitor during use to give accurate idea of power remaining.
• User updatable via USB. New patterns, modes and features will be introduced with firmware updates.
ElectraStim Axis

What's Included?
- Cardboard retail packaging
- Axis branded zip carry case
- Axis Electro Stimulator
- Belt clip
- 2 ElectraStim 2mm accessory cables
- USB charging cable
- Stereo line-in cable
- 4 conductive pads
- Quick Start Guide
- Warranty card
- Programming pin

*correct as of October 2019. Subject to change with firmware updates

Eco Friendly- 100% Performance, 100% Of The Time
AXIS features an environmentally conscious Lithium-Ion battery that is easily recharged with the supplied USB cable. A battery fuel gauge constantly monitors your use of AXIS for an accurate idea of how much power you have left at your current stimulation level. AXIS can provide up to 8 hours of play from a single charge and will recharge to 80% in under an hour. AXIS’s fully regulated outputs deliver the optimum intensity levels every time, no matter what battery level you’re at- a feature that many competing electro stimulators lack.

Configuration Options
Enable additional on-screen technical information such output levels in mA and pattern wavelength in mHz. Perfect for the advanced electro-sex user.

Updatable
Axis will be periodically updated with new features and performance improvements. All you’ll need to do is plug it into a PC/ Laptop or Mac a using the included USB cable and follow the instructions provided at www.electrastim.com/axis to quickly and easily ensure you have the most up-to-date version of AXIS.

Accessible
Not only are the Gesture and Proximity based modes within AXIS a lot of fun to experiment with, they have also been developed with accessibility in mind. Users with reduced dexterity who may find traditional button or dial controls awkward will be able to control AXIS hands-free in the heat of the moment.

*correct as of October 2019. Subject to change with firmware updates
Flux - Hard Play for Hard Players

Designed for intense play or edging for improved stamina control, ElectraStim Flux multi-function stimulator has 99 intensity levels, 6 play modes and configuration options to let you play your way, Flux delivers uncompromising high-end features and unrivalled functionality; the perfect upgrade from a single channel or introductory stimulator. Simple operation combined with a high speed micro processor and high contrast OLED display means you stay in constant control of Flux’s responsive play modes.

Key Features:

• Dual isolated outputs
• High Power- 99 Intensity levels
• 6 Play Modes
• Black and White OLED graphic display
• Motion control modes (Flick & Tilt)
• Sound control modes (Microphone & Stereo Line-In)
• Rechargeable lithium-ion battery (0-80% charge in under an hour)
• User Updatable
ElectraStim Flux

What's Included?
Cardboard retail packaging
Flux branded zip carry case
Flux Electro Stimulator
Belt clip
2 ElectraStim 2mm accessory cables
USB charging cable
Stereo line-in cable
4 conductive pads
Quick Start Guide
Warranty card
Programming pin

ElectraStim stimulators deliver 100% of the performance, 100% of the time.
All ElectraStim stimulators released in recent years contain a Lithium-Ion battery that is easily recharged with the supplied USB cable. Flux is no different and also has a battery fuel gauge which constantly monitors your use for an accurate idea of how much power you have left at your current stimulation level. Flux can provide up to 8 hours of play from a single charge depending on the power intensity you use and what mode you’re in. The good news is that Flux charges to 80% in under an hour.

As with AXIS, Flux also features regulated outputs that deliver the same intensity levels regardless of battery level. Each level will feel the same, every single time, no matter whether you have 9% or 90% battery remaining.

Zero Override Mode
By default, our stimulators reduce the intensity to 0 each time you change mode as a ‘comfort feature’ to allow users to experience different modes at a more careful pace. However, Flux features a new configuration option where more experienced users can override this system for uninterrupted play at your chosen intensity- even if you decide to change modes.

Updatable
Flux can be updated by the user if we introduce firmware improvements. All you’ll need to do is plug it into a PC/Laptop or a Mac using the included USB cable and follow the instructions provided at www.electrastim.com/flux to quickly and easily ensure you have the most up-to-date version of Flux.
Fusing the unmistakable sensations of electro sex with the luxurious feel of silicone; our Silicone Fusion range not only blends stimulation but also introduces a spicy shade of red to a brand new range of accessories.

Ideal for all users, the Silicone Fusion range puts our unique twist on some familiar designs while updating and upgrading them for use with our electro stimulators (sold separately). Inspired by feedback from our customers, we’ve blended form and functionality to create toys that are suitable for men, women and couples; both solo and together.

More designs are already in development and will be added to future issues of this catalogue.

**EM3130 - ‘VIPER’ ELECTRO COCK SHIELD**

Viper is a bipolar electro sex cock shield designed to be worn either during masturbation or sex with a partner. Made from the signature black and red silicone of the Silicone Fusion range, Viper’s unique design hugs the curve of your pelvis for a snug and comfortable fit around your penis. Flexible arms allow for Viper to expand up to a 60mm diameter which will accommodate most penis sizes with ease.

78mm x 76mm (orifice 30mm, expandable to 60mm)

**EM3131 - ‘INFINITY’ ELECTRO PINWHEEL**

A first for the electro category, Infinity is inspired by the classic Warteremberg pinwheel but with a twist. The smooth and slightly flexible silicone lends a softer appearance to the toy while the feel-it-to-believe-it performance of the electro stimulation ensures the intense sensations you’d expect.

Perfect for couples looking to try something different; Infinity is a fantastic ‘gateway’ to electro play that really helps to communicate the unique sensations to new audiences.

120mm x 58mm
**EM3132 - ‘KOMODO’ ELECTRO DILDO**

162mm x 113mm (circumference)  
Insertable Length: 139mm

**Komodo** can be used as a handheld dildo, can be suctioned to a flat surface and ridden hands-free using the bespoke cradle and even worn as a strap-on.

Add to that the customisable sensations of electro-stimulation and you have a toy that not only gives you a huge amount of choice in your play but that is also a great introduction to internal e-stim.

**EM3133 - ‘HABANERO’ ELECTRO PROSTATE MASSAGER**

131mm x 125.6mm (circumference)  
Insertable Length: 96mm

Inspired by the best-selling success of the ElectraStim Sirius Prostate Massager, **Habanero** takes all the best bits of its little brother but is girthier and heavier for more stability.

**Habanero** features a ‘rocker base’ and ‘stealth entry’ cable system which protects the cables and allows the user to literally sit and rock for intense internal stimulation.

The shaft can also be bent into position for customised prostate precision- the ‘Shape and Play’ spine inside will ensure **Habanero** stays in the position you prefer for as long required.
Lose yourself to the pleasure of a more sensual erotic electro-stimulation experience. The ElectraStim Silicone Noir range of electro sex toys is made from 100% silicone for a softer and more squeezable texture that complements the throbbing and pulsating sensations of EES.

**EM3100 – AURA**
Ideal for beginners and suitable for both vaginal and anal use, the Aura multi-probe has bi-polar contacts and is perfectly proportioned to massage her G-spot or his prostate during wear.

**EM3101 – NONA**
Designed especially for her, Nona is worn inside the vagina and nuzzles her G-spot with its curvaceous form. Sit upright or on all fours and rock against the curve for an explosive orgasmic experience. Bi-polar, safe for vaginal and anal use.

**EM3103 – LULA**
Part jiggle ball, part muscle toner; Lula features a free-roaming weight that massages her G-spot and bi-polar conductive contacts to help her indulge in delicious internal sensations.

**EM3102 – OVID**
Smooth, seductive and satisfying, Ovid combines a full tip and a swollen bump in the shaft to intensify the pleasure experienced with every thrust. Suitable for both vaginal and anal use, this bi-polar dildo is perfect for G-spot and prostate stimulation.

**EM3104 – SIRIUS**
Crafted for his pleasure, Sirius is a quadri-polar prostate and perineum massager with 4 contacts to thrill his internal and external pleasure zones in unison. ‘Shape and Play’ technology gives control over the shape and angle for tailored contact with the male G-spot. A dual-channel stimulator is required to power all 4 contacts at once.
Rockers

The ElectraStim Rocker Butt Plug range has been designed for truly hands-free use. The unique curved Rocker bases feature embedded 2mm inputs that allow you to sit on, rock and grind against the e-stim butt plug during wear. Designed with a tapered shape to assist insertion and a ridged texture to enhance sensation during wear. Seamless bi-polar contacts in the shaft transmit sensation from an ElectraStim stimulator, making the anal pleasure zones tingle and the muscles pleasurably throb in time with the stimulation pattern.

Available in small, medium and large sizes.

STEALTH CABLE ENTRY SYSTEM
JACK SOCKET
Standard & XL

This award-winning men’s sex toy combines the unmistakable sensations of e-stim with the pleasurable stroking action of a realistic male masturbator.

The ElectraStim Jack Socket is a compact, realistic stroker with a difference. It has a curvaceous internal texture, skin-like movement and a lifelike feel, but the similarities with other men’s sex toys end there.

Jack Socket is now available with the original ‘Standard’ inner sleeve or the ‘XL’ sleeve which boasts a ribbed texture and a more accommodating fit for men with a larger than average penis thickness.

- Realistic Feel with ‘Electro-Intense Texture’
- Open ended design that will accommodate all penis lengths and is suitable for Personal or Couples play
- Stroke, Squeeze and Twist your way to Amazing “E-Gasms”
- 2 different sleeve options available (sleeves also sold separately)

Included:
- Silicone outer case & internal components
- Non-anatomical TPE realistic inner sleeve
- Tube of electro-conductive gel included
- Multi-language instructions
- For use with ElectraStim Stimulator Unit (Supplied Separately)

Jack Socket Standard
- The original award-winning Jack Socket inner sleeve
- Bumpy inner texture for an intense all-over massage
- Tight but flexible canal for intense sensations
- Suitable for girths between 25mm and 40mm (1”-1.6”) diameter

Jack Socket XL
- Designed to accommodate men with a larger girth - between 37mm and 48mm (1.45”-1.9”) diameter
- Fits inside the same outer casing as the Standard.
- New ribbed texture creates a subtle suction effect while you enjoy the electro-stimulation
Prestige ElectraLoops

Building on the success of our conductive rubber loop design, ElectraStim Prestige ElectraLoops are designed to offer a premium electro-sex cock ring experience to the connoisseur.

- Thick rubber gives increased surface area for more even and intense stimulation.
- Machined aluminium adjustment choke with matching stopper- anodized finish in Red, Silver or Gold.
- Non-slip adjuster allows for a customised fit that can be pulled as tight as you desire for enhanced erections.
- Matching metal stopper prevents rubber from slipping through during play and prevents incorrect connection.
- 2mm pins- compatible with all ElectraStim stimulators (sold separately)

Kit Supplied:

- 2 unipolar loops supplied in each pack.
- Supplied with multi-language instructions (English, French, German, Italian, Spanish and Dutch)

EM3156- RED
EM3157- SILVER
EM3158- GOLD

DIMENSIONS
- Rubber thickness: 6.5mm
- Maximum loop diameter: 60mm
- Metal ‘choke’ size: 21mm (w) x 22.5mm (h) x 14mm (thick)
Adjustable Cock Rings

From solid metal rings to adjustable cock loops, our range of electro rings was designed to cater for all sizes and preferences. Wear a single ring, loop or band alongside any other electrode or opt for full-length sensations when you wear two or more around your length.

**Electraloops Metallic EM2151**
For intensified cock stimulation, look no further. These metallic cock loops are adjustable up to 45mm in diameter.

**Electraloops Rubber EM2150**
Adjustable up to 70mm diameter and manufactured from super-conductive rubber that will expand when you do. Suitable for cock and scrotal use.

**Electrabands EM2152**
ElectraBands are elasticated and adjustable up to 75mm diameter. The connector adapters can be detached for cleaning.

**Metallic Scrotal Loop EM2153**
For the ultimate in scrotal stimulation, this non-stretch metallic loop will adjust to a maximum diameter of 70mm.

Always use ElectraStim Electro Conductive Gel with cock and scrotal attachments for enhanced sensation.
**Solid Metal Cock Rings**

**Cock Rings EM2120**
(Sizes: 36, 38, 40, 42 and 44mm diameter) Two cock rings are worn, one at the base of your shaft and one beneath the glans. Supplied in a pack of 5.

If you need different size, you can buy a single ring:
- 32mm: Ref. EM2101
- 34mm: Ref. EM2102
- 46mm: Ref. EM2108
- 48mm: Ref. EM2109
- 56mm: Ref. EM2134

**PreStige Cock Rings**
Enjoy smoother stimulation for longer with the Prestige range of cock rings. Crafted from 316 stainless steel, each uni-polar ring is beautifully polished and features a series of holes that trap conductive gel to prolong his pleasure. Supplied individually.
- EM3150 – 34mm / 1.3”
- EM3151 – 38mm / 1.5”
- EM3152 – 42mm / 1.7”
- EM3153 – 46mm / 1.9”
- EM3154 – 50mm / 2”

**Scrotal Rings EM2140**
Supplied in a pack of 3 (52, 60 and 68mm) Multiple sizes for the best fit. Use a single cock ring around the penis and scrotum and team it with any other electrode.

Always use ElectraStim Electro Conductive Gel with cock and scrotal attachments for enhanced sensation.
Luxury Metal

We take a piece of clear acrylic, bond it between two solid metal bars with aircraft-strength adhesive and then shape and polish to a luxuriously fine finish. We then add a series of insulating rubber O-rings to provide a good grip and ensure the stimulation is focused only where you want it. The result? Simply orgasmic!

**CLASSIC BUTT PLUGS**

Our range of classic butt plugs feature a slender stem and tapered bulb for pleasurable wear and hands-free retention.

![Mini EM2195](image)
![Midi EM2196](image)
![Maxi EM2197](image)
![Halo EM2198](image)

**EXTREME BUTT PLUGS**

Our Extreme range is intended for those with a penchant for bigger and better things. These full and tapered bi-polar anal plugs are specially shaped for easier insertion and hands-free retention.

![Intruder EM2190](image)
![Invader EM2191](image)
![Intimidator EM2192](image)

**CLITORAL STIMULATOR**

The “Halo” clitoral stimulator is a revelation in electrode technology. Designed with one purpose in mind – to provide a totally new and amazing way to enjoy clitoral stimulation.

![Halo EM2198](image)
**Luxury Dildos**

If you demand the very finest craftsmanship and only the most satisfying stimulation, you’ll love our luxury dildos.

Crafted from highly-polished metal with a cool, hard texture for a climactic internal massage.

**Electro Sex Tips – Using Bi-Polar Electrodes**

Bi-polar electro sex toys are generally used independently but they can be used as uni-polar electrodes too. Instead of connecting both pins on your connecting cable to the electrode, just connect one.

You can then connect the second pin to another electrode to stimulate two different areas at once or even share the circuit with your partner.

---

**Fetish Play**

From soft and sensual to deeply sadistic, our fetish play electrodes are designed to push your pleasure/pain boundaries one level at a time. Use them alongside an intimate electrode or combine any two to test your kinky limits.

**Electrapaddle**

Enhance the effect of every spank with this bi-polar leather electro spanking paddle. Give a sharp tap to the buttocks with the smooth side then flip over to caress the sensitised area with electro-stimulation. Use with conductive gel.
ELECTRACLAMPS UNI-POLAR (2 PACK) EM2171

This pair of uni-polar clamps could liven-up your play. They’re suitable for use anywhere below the waist and have an adjustable grip that opens up to 20mm when opened fully and 7mm when closed using the adjuster screw. Electrastim ElectraClamps have uni-polar input, with connection for both 2mm pins and 4mm banana plugs. Includes 2x Clamps and 1x Tube of Conductive Gel.

URETHRAL SOUNDS

A mind-blowing uni-polar accessory made from polished medical-grade 316 stainless steel. An insulated handle focuses stimulation just where you want it, allowing you to manipulate the probe during wear with ease.

Includes 3 x sachets of sterile lube and 3 x sterile cleansing wipes. 130mm long, available in 3 diameters -
EM2175 (5mm)
EM2177 (7mm)
EM2179 (9mm)

Three sizes now available

SINGLE PINWHEEL EM2180

Tease your lover’s body to attention with this uni-polar electro Wartenberg wheel. Teasing tingles awaken the nerve endings to enhance every kiss, touch and caress.

DOUBLE PINWHEEL EM2181

Double up on sensation with our bi-polar pinwheel. It offers twice the sensation as our single wheel and because it has dual inputs, it doesn’t need to be used alongside a second electrode.

All ElectraStim electrodes have 2mm connection sockets. You can use our electro sex toys with stimulator brands by purchasing one of our adapter kits.
Flexible

Go deeper with our range of flexible internal electrodes. Tadpole and Depth Charge have insulated, slimline stems that allow you to reach your deepest internal pleasure zones with ease. Suitable for both vaginal and anal use, they’re deliciously adept at prostate and G-spot massage.

**DEPTCH CHARGE**

The amazing new “Depth Charge” is an egg-shaped stimulation electrode with a flexible spring shaft that is manipulated with an ergonomic hand grip. The shaft is made from non-conductive, low-diameter silicone which focuses the deep internal sensations exactly where they’re wanted.

The flexi-shaft allows the probe to naturally bend where required and can be used for vaginal, anal and prostate e-stim.

**TADPOLE**

This covert egg-shaped electrode can be used in the bedroom and beyond. Designed with the more adventurous lover in mind, Tadpole is comfortable, discreet and ideal for public play using our Controller stimulator.

The flexible grip easily tucks away, so only you and your lover will know your naughty little secret.
WARNING ElectraStim products are intended for use below the waist area. Do NOT use: If you suffer from any form of heart condition, over inflamed/swollen/broken skin, if pregnant, if you suffer from epilepsy, if you have any penile/vaginal/anal disorders. Cyrex Ltd. will not be held responsible or liable for any injury, harm or accident resulting from the use of any of its products how so ever caused. Use of Cyrex products implies that you have read the instructions prior to use and accept these terms. No medical claims are expressed or implied.

SAFETY Our stimulation units are not medical devices but have been designed in accordance with European (EN60601-1) and US Safety Requirements for Medical Electrical Equipment and comply with CE, RoHS and WEEE directives.
