A low-down on the latest design labels making waves with their creations

SIHASN

Founder: Ganesh Shankar

Design Inspiration: The ajrakh leaf collection is inspired by the rich and vibrant heritage of India.

About the Collection: Marrying the vivid textiles of India with sleek mid-century modern structures, Sihasn creates seating furniture with a bold splash of colour.

Why We Like It: The collection is a celebration of India's indigenous textiles — the contrast of contemporary furniture upholstered in traditional fabrics is eye-catching.

MATERIAL IMMATERIAL

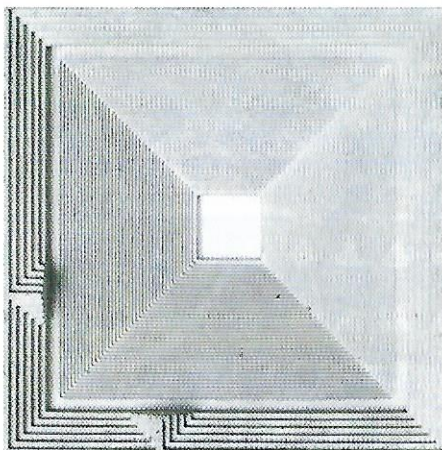

Founders: Nitin Barchha and Disney Davis

Design Inspiration: The Mirage collection of doorknobs and handles is inspired by the works of architect Carlo Scarpa.

About the Collection: The design rests on the play of light and shadow. The studio has created this collection to explore such elements that define spaces.

Why We Like It: It features an architectural design that is captivating in its geometric appeal and classic grey tone.

IRA STUDIO

Founder: Manasa Prithvi

Design Inspiration: It draws inspiration from the landscapes, architecture and cultures of Chandigarh, Jaipur and Kutch.

About the Collection: These accent tables are designed to be self-assembled. The blackened zinc, a result of the Bidri process, offsets the subtle burnished glow of the inlay.

Why We Like It: The ancient process lends individuality to each piece. And, it doesn't hurt that it looks uber chic!
