LANDSCAPE INNOVATIONS

Manhole Covers and Gully Gratings

WELCOME TO LATERAL DESIGN

We are leading the evolution of construction and drainage products.

Here we highlight our comprehensive range of manhole covers and gully gratings. These sophisticated gratings continue to lead the way in public realm innovations, having been installed in numerous high-profile locations up and down the UK. Our architectural quality manhole and gully covers are classically styled and robust enough to withstand the rigours of the street. Available in a wide range of sizes and load classifications, these covers are suitable for individual homes right up to prestigious town and city centre regeneration projects.

A UNIQUE PERSPECTIVE

We bring a fresh, unique perspective and creative thinking to all our products for all our clients.

Our company has helped revive the foundry skills used by artisans of yesteryear and our spirit drives us to continually reinvent, design and manufacture bespoke products that not only function, but aesthetically lift projects to entirely new levels.

A COMPREHENSIVE DESIGN SERVICE

As well as offering a wide range of designs, we can also commission a completely new one for you, producing them in a choice of beautiful finishes. Working alongside our clients to create bespoke castings that are unique but also meet load classes and other requirements.

Along with our design service we can also offer all associated products including frames, which we can fabricate to suit different applications and load classes in a range of materials, such as galvanised or stainless steel. We can even provide manhole lifting kits and any other accessories you may require to complete your project.

AWARD-WINNING EXPERIENCE

Lateral Design Studio have been involved with a number of outstanding urban renovation projects providing award-winning covers and bespoke cast iron manhole solutions for Grosvenor Estate, Motcomb Street Belgravia, Berkeley Square Mayfair, the London Borough of Hackney, Newcastle University and Canterbury Cathedral.

We have also been involved in several special projects for award-winning garden designers and other notable industry experts and professionals.

PRODUCT
OF THE YEAR

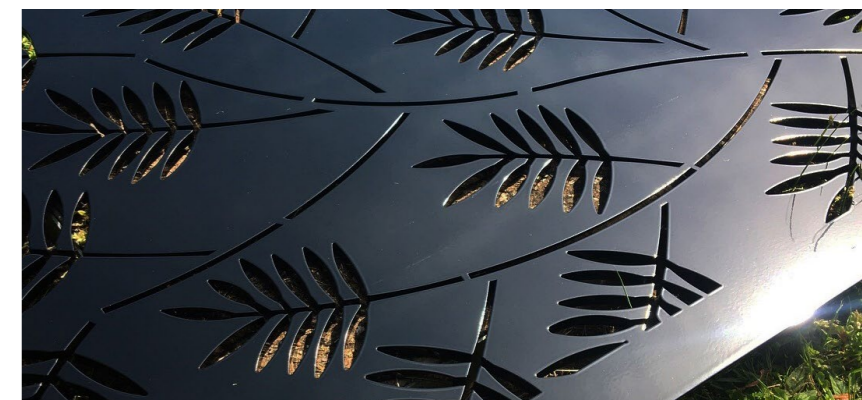

www.lateraldesignstudio.co.uk

A COMPREHENSIVE DESIGN SERVICE

We believe in letting nature take its own course with every material in the outdoor environment but we do offer alternative finishes that can alter the aging process of our castings.

Raw cast iron starts out grey in colour but upon contact with water begins to rust into a bright orange colour which will eventually wash or wear away, leaving behind a richer, chocolate brown patina. To bypass this natural progression we can offer a baked oil finish, powder coating services to any colour or even apply a special protective treatment post-rust that will maintain the colour in a darker more attractive finish and help protect the grate from further corrosion.
